MEMORANDUM

To: Users of the Cost Index and Depreciation Schedules
From: Megan M. Williford, Property Valuation Specialist I 
Date: November 27, 2023
Re: 2024 Cost Index and Depreciation Schedules

Attached you will find the 2024 Cost Index and Depreciation Schedules. The document will soon be published on our website at <https://www.ncdor.gov/news/reports-and-statistics/property-tax-publications/cost-index-and-depreciation-schedules>.

We recommend the use of these schedules in the valuation of business personal property and certain taxable personal property listed as of January 1, 2024. There were no changes this year, other than the usual percent good factor adjustments.

There were a few minor changes this year, other than the usual percent good factor adjustments. These changes are for appraisals as of January 1, 2024, and forward, and are not retroactive. The changes have been marked with an asterisk in the Cost Index and are as follows:

1. On Index page 1, under the category *Aerospace Industry*, added a note on the improper use of the indicated schedule for the appraisal of aircraft.
2. On Index page 1, under the category *Amusement and Recreation Equipment*, updated the subcategory *Boats* to specify bumper and pedal. This category does not apply to watercraft.
3. On Index page 7, added the category *Expensed Assets*, with a recommended Schedule A-8.
4. On Index page 10, under the category *Medical Equipment*, mammogram machines were added to the subcategory for CAT Scan and MRI equipment on the Schedule C-6.
5. On Index page 11, under the category *Motor Vehicle Parts and Accessories*, added a note on the improper use of the indicated schedule for the appraisal of motor vehicles.

6. On Index page 13, under the category *Restaurant, Bar and Soda Fountain Equipment*, the subcategory *Televisions* was created with a recommended Schedule B-5 for assessment consistency with other business types.
7. On Index page 15, under the category *Textile Mill Products*, provided further detail in the note section on application of a reduced residual.
8. On Index page 16, changed the category *Warehouse Materials Handling Equipment* to *Warehouse and Distribution Centers*, with a recommended Schedule A-10. The description was updated to provide additional detail.
9. On Index page 16, added the category *Water, Wastewater and Sewage Treatment*, with a recommended Schedule T-18.

Reminder(s):

1. Schedule N shows a straight-line schedule that depreciates down to zero, for illustrative purposes. However, you should always use a 25% residual when applying Schedule N unless you have analyzed a particular situation and decided a lower residual is warranted.
2. Per Session Law 2018-113, NC Farm Act of 2018, counties are required to use the A-10 schedule and 25% residual if valuing equipment under the *Farm and Ranch Machinery and Equipment* category using the cost approach. (If additional depreciation is warranted, the county appraiser may value below the 25% residual.)

In 2005, the North Carolina Court of Appeals affirmed the North Carolina Property Tax Commission's decision in the matter of the appeal of Westmoreland—LG&E Partners from the decision of the Halifax County Board of Commissioners for the tax years 1996-2001. In its decision, the North Carolina Court of Appeals opinion quoted excerpts from the Property Tax Commission's decision. The opinion quotes, "The Tax Administrator properly applied the Cost Index and Depreciation Schedules developed by the North Carolina Department of Revenue..." The Court also writes, "It is well-settled in this State that ad valorem tax assessments are presumed correct." This and other previous cases have solidified our opinion that, when used properly, the Cost Index and Depreciation Schedules are well accepted by the Courts.

These schedules have been prepared by this office as a general guide to be used in the valuation of business personal property, utilizing the replacement cost approach to value. It is important to remember that the schedules are only a guide. There may be situations where the appraiser will need to make adjustments for additional, or less, functional or economic obsolescence; or for other factors.

These schedules are provided to aid in the overall uniformity and equity of property tax assessment practices, as required by North Carolina statutes. If you have any questions about these schedules, please contact the Personal Property Section at (919) 814-1129.

2024 Cost Index and Depreciation Schedules

The cost approach is the most widely used approach to valuing business personal property. It is calculated in a manner that gives consideration to both inflation and depreciation in arriving at a final estimate of value. The estimate of value is determined by trending the cost of an asset to arrive at the replacement or reproduction cost new, then reducing that cost to account for depreciation. The cost approach lends itself to mass appraisal and can be readily applied using the information submitted on annual property tax listing forms.

The Cost Index and Depreciation Schedules are recommended for business personal property tax valuation in North Carolina and are supported by the court system. In fact, legislation was passed that requires the use of the published schedule for farm and ranch machinery and equipment. These schedules utilize the cost approach to valuation and serve as a beneficial tool in the appraiser's effort to maintain uniformity in the appraisal of business personal property within a taxing jurisdiction. If the schedules are applied by all counties, uniformity will be achieved statewide.

It is not feasible for county tax appraisers to appraise individual assets for ad valorem purposes. Appraisers must use mass appraisal techniques to arrive at assessed values for property in their jurisdiction. The mass appraisal process values groups of properties with similar characteristics. When utilizing the cost index, the appraiser should value machinery and equipment using the schedule that corresponds with the category of the taxpayer's principal type of business. There may be categories of property not identified in the schedules. In this situation, the appraiser will use their best judgment to determine the proper schedule to arrive at fair market value. The appraiser may also contact the Local Government Division for additional guidance.

As a general rule, the useful life schedules in this publication represent the midpoint of asset depreciation ranges extracted from publications of the Internal Revenue Service, or through special studies. The trend factors are determined using the percentage price increase or decrease over the past year of similar business markets. These percentages come from the latest edition of the Producer Price Index, published by the U.S. Department of Labor's Bureau of Labor Statistics.

This cost index consists of tables that incorporate trend factors and depreciation percentages to appraise business personal property. The resulting figure is a composite conversion factor, which combines the trend factor and the amount of allowable straight-line depreciation based on the vintage year of the asset. The factors are expressed in this manner to eliminate additional mathematical computations in the appraisal process. These factors are labeled in the cost index as the *percent good factors*. The term *percent good* represents the remaining percentage of replacement cost after all forms of depreciation are deducted.

The starting point in the valuation of business personal property is the historical cost of an asset. The historical cost signifies the initial, installed cost of a new asset to its initial user. When assets are purchased new, this cost typically matches the capitalized cost found in

the owner's accounting records. Historical cost is the full economic cost of an asset and includes all costs associated with constructing the asset and making it ready for its intended use.

Property normally increases in value as it progresses through production and distribution channels. The property achieves its maximum value as it reaches the consumer level of trade. It is only at this level that assessment is uniform and equitable. Therefore, businesses that use and consume property they produce or create must list such property at the retail cost of the property at the consumer level, not the manufacturer's cost to produce the property. Property purchased by wholesalers and retailers must also be listed at the retail cost of the property at the consumer level, not the cost paid to acquire the property from the manufacturer or wholesaler.

The cost index recognizes the loss in value from the routine use of business personal property over its economic life. These schedules incorporate typical physical deterioration and conditions of obsolescence. However, appraisers may need to consider adjustments to the final value estimate to account for excessive depreciation under extraordinary circumstances. This may include applying an additional depreciation percentage or lowering the standard residual percentage amount. Before making an adjustment for excessive physical deterioration, or functional or economic obsolescence, the taxpayer must provide evidence that supports the claim. Based on the evidence the taxpayer provides, and/or a physical inspection of the property, the appraiser will determine whether or not a value reduction is warranted.

To produce the assessed value of business personal property, the percent good factor is multiplied by the historical cost. It is very important to remember that the trend factors that are shown in this cost index have already been calculated into the percent good factors. Therefore, you do not apply the trend factor a second time.

Example

A taxpayer listed commercial dry cleaning equipment at a historical cost of \$100,000 that they acquired in 2017. What is the value of this equipment on January 1, 2024?

1. Look up the dry cleaning category to determine the appropriate schedule and life.

NC Department of Revenue Local Government Division Personal Property Section 2024 Cost Index and Depreciation Schedules			
<u>MAJOR CATEGORY</u>	<u>Page</u>	<u>Schedule</u>	<u>Life</u>
<u>DRILLING EQUIPMENT (GAS, PETROLEUM & WATER)</u>			
Exploration and Drilling Equipment Includes water activated well drilling equipment that is mounted on vehicles.	17	A	6

<u>CONTRACTOR'S EQUIPMENT</u>			
Barricades and Warning Devices.....	17	A	3
Cranes to 50 Tons, Shovels to 8 Cubic Yards	17	A	10
Cranes, Shovels, and Drag Lines.....	18	B	25
General Construction - Highway, Dams, etc.....	17	A	8
Portable Asphalt Batch Plants.....	17	A	6
Special Trade Contractors: Electrical Heating, Plumbing, Painting, Framing & Carpentry.....	17	A	10
Stationary Asphalt Batch Plants.....	17	A	14
<u>COPYING AND PRINTING EQUIPMENT</u>	27	U	5
Includes computer printers, network computer printers, copiers, scanners, multi-functioning devices, desktop 3-D printers, portable commercial printing equipment, and leased copying and printing equipment.			
Industrial/Commercial 3-D Printers.....	17	A	11
<u>COTTON GINS AND COMPRESSES</u>	17	A	12
Cotton gin machinery for removing seeds from raw cotton. Cotton compresses are machines used to bale cotton after ginning.			
<u>CRYPTOCURRENCY MINING</u>	27	U	8
<u>DATA PROCESSING EQUIPMENT</u>	27	U	5
This category is for non-production computers. It includes personal computers, taxable software, smartboards, midrange and mainframe computers, and their peripherals used for data processing. Includes standard IBM compatible personal computers used in manufacturing and point of sale (POS) systems, but not proprietary POS units, such as computers built specifically to be used as POS computers or other proprietary computerized systems. For POS proprietary systems and electronic cash registers, see <i>Store Equipment</i> .			
This category <u>does not</u> include computers embedded in machinery, nor does it include equipment or computers specifically designed for use in any other application directly related to manufacturing or retail. It does not include equipment that is an integral part of other capital equipment that is included in other classes of economic activity, such as computers used primarily for process or production control, switching, channeling, and automating distributive trades and services, such as proprietary POS computer systems.

MAJOR CATEGORY

Page Schedule Life

This category does not include equipment of a kind used primarily for the amusement or entertainment of the user.

Note: Accelerated depreciation is used on data processing equipment. The residual is 5%.

DRILLING EQUIPMENT (GAS, PETROLEUM & WATER)

Exploration and Drilling Equipment..... 17 A 6
 Includes water activated well drilling equipment that is mounted on vehicles.

DRONES..... 18 B 5

DRY CLEANING AND LAUNDRY EQUIPMENT

Self-Serve (Coin/Card Operated)..... 18 B 6
 Commercial..... 18 B 10
 Leased and Rented Linens and Uniforms..... 24 N 2

ELECTRIC ENERGY GENERATION EQUIPMENT

A. Biomass-Renewable Organic Matter Electricity
 Generating Equipment 26 T 18

B. Hydro-electric Generating Equipment 26 T 50

C. Natural Gas-Fired and Combined Cycle Electrical
 Generating Equipment..... 26 T 18

D. Photovoltaic Solar Electric Generating Equipment..... 26 T 18

E. Steam Powered Electric Generating Equipment..... 26 T 28
 Includes assets used in the steam power production of electricity for sale, combustion turbines operated in a combined cycle with a conventional steam unit.

F. Thermal Solar Electric Generating Equipment..... 26 T 18

G. Wind Power Electricity Generation Systems 26 T 18
 Includes wind turbines, support shafts and foundations, ancillary lines, transformers, and other equipment necessary to move the electricity from the wind turbines to the utility's transmission line.

* Indicates a change from the previous year's publication.

<u>MAJOR CATEGORY</u>	<u>Page</u>	<u>Schedule</u>	<u>Life</u>
<u>ELECTRICAL EQUIPMENT</u>	21	I	10
Includes the manufacture of electrical household appliances, batteries, and machinery used in the generation and utilization of electric energy.			
<u>ELECTRONIC EQUIPMENT</u>			
A. Manufacturing of electronic communication, detection, guidance, control, radiation computation, test and navigation equipment.....	21	I	8
B. Manufacturers engaged only in the purchase and assembly of electronic components.....	21	I	12
C. Semi-Conductor Manufacturing	27	U	6
D. Semi-Conductor Testing Equip.....	27	U	8
E. Vapor De-pollution System	17	A	5
* <u>EXPENSED ASSETS</u>	17	A	8
<u>FABRICATED METAL PRODUCTS</u>	17	A	12
Includes the manufacture of fabricated metal products such as cans, tin ware, hardware, metal structural products, architectural and ornamental metalwork, nuts, bolts, metal awnings, portable metal structures, etc.			
<u>FARM AND RANCH MACHINERY AND EQUIPMENT</u>	17	A	10
Includes all farm implements, machinery and equipment used in the production of crops and animals, on the farm processing of feeds, poultry and swine house equipment, tractors, combines, and cotton harvesters.			
<p>Note: Whenever possible, this equipment should be appraised using the market (sales comparison) approach. There are several good pricing guides available which provide market values of farm equipment based on sales. If the county appraises farm equipment using the cost approach, the A-10 schedule with a 25% residual is statutorily required for <u>all</u> equipment in this category! See G.S. 105-317.1(b1).</p>			
<u>FIBER OPTICS MANUFACTURING</u>	21	I	8
Manufacturers of glass fiber for fiber optics.

GLASS AND GLASS PRODUCTS

(EXCLUDES MANUFACTURE OF LENSES)..... 17 A 14

Includes the manufacture of glassware, pressed or blown,
and the manufacture of products from purchased glass,
such as quartz and Pyrex, laboratory apparatus, art glass,
doors made from purchased glass, glass containers, plate,
safety and window glass.

Manufacture of Mirrors..... 17 A 10

HOTEL, MOTEL AND RESORT EQUIPMENT 20 D 10

Televisions

18	B	5
----	---	---

IDLE EQUIPMENT

Equipment that has been taken off production status on a permanent basis is considered to be idle equipment. This classification should not be confused with equipment that is temporarily idle due to not yet being placed into production (CIP), a downturn in the economy, seasonal production, routine maintenance, etc. Although we recommend in most cases that some additional depreciation adjustment be made to verified idle equipment, there is no firm guideline as to what adjustment should be made to determine the final value.

* Indicates a change from the previous year's publication.

MAJOR CATEGORY

Page Schedule Life

In determining the amount of adjustment, the county appraiser must review each situation, taking into account all the factors affecting the property such as age, condition, past and future uses, marketability, remaining life, and reasons for the equipment being idle.

INSTRUMENTS (PROFESSIONAL, SCIENTIFIC & CONTROLLING, PHOTOGRAPHIC AND OPTICAL, WATCHES AND CLOCKS).....

18 B 12
 Includes establishments in manufacturing scientific and research instruments such as meters - gas, liquid, tallying and measuring; optical elements and assemblies, hearing aids, hearing test equipment, wheel chairs, prosthetic devices, contact lenses, photographic accessories, data cameras, watches and clocks.

LANDSCAPING EQUIPMENT.....

17 A 8

LEASED OFFICE BUSINESS MACHINES.....

25 S 5

This category also includes leased fax machines and communication equipment. It does not include electronic data processing equipment, portable commercial printing equipment, copiers, and mailing and postage machines.

LEATHER AND LEATHER PRODUCTS.....

17 A 11

Includes the manufacture of finished leather products; tanning, currying and finishing of hides and skins; and the processing of fur pelts. For example: footwear, handbags, saddles, harnesses, luggage, etc.

LUMBERING

Logging Equipment..... 17 A 8

Sawmill (Portable)..... 17 A 6

Sawmill Machinery and Equipment (Permanent Mills)..... 17 A 10

Includes lumber manufacturing.

MACHINERY AND MANUFACTURING.....

17 A 10

Includes the manufacture of machinery such as engines and turbines; ball and roller bearings; farm, construction, mining, food products, office, and paper industry machinery; compressors, pumps, blowers, industrial patterns, process furnaces and ovens, service industry

<u>PLASTIC PRODUCTS</u>	17	A	11
Includes the manufacture of processed, fabricated and finished plastic products as well as the manufacture of basic plastic materials such as plastic bottles, Styrofoam cups and packaging materials, plastic pipe, tubing, plastic screen, fiberglass bathroom fixtures, etc.			
<u>PRIMARY METAL INDUSTRIES</u>			
Includes most hot metal processes such as the manufacture of foundry products, castings, forgings, sheet metal, pipe tubing, structural shapes and wire.			
Ferrous - Iron	17	A	18
Non-ferrous - Aluminum, Copper	17	A	14
<u>PRINTING AND PUBLISHING</u>	17	A	11
Includes printing, publishing, lithography, and printing services such as bookbinding, typesetting, photo engravings, and electrotyping.			

Note: Electronic data processing and other computer equipment used in publishing should be listed and appraised separately.

* Indicates a change from the previous year's publication.

<u>MAJOR CATEGORY</u>	<u>Page</u>	<u>Schedule</u>	<u>Life</u>
<u>PROFESSIONAL EQUIPMENT (MISCELLANEOUS)</u>	18	B	10
Includes architects, accountants, engineers, photographic studio equipment, taxidermists, hobby and craft shops, graphic design illustrations, etc.			
<u>PROFESSIONAL LIBRARIES</u>			Not Scheduled
Accountants, Architects, Engineers, Law, Medical, etc.			
 <i>Note:</i> Used volumes in good saleable condition should be appraised at 1/3 of original cost, regardless of age.			
<u>REFRIGERATION EQUIPMENT</u>	18	B	10
Vacuum Cooling Stationary.....	18	B	10
Vacuum Cooling Portable.....	18	B	8
<u>RENTAL EQUIPMENT</u>	25	P	5
The equipment covered by this schedule consists of, but is not limited to, the following: hand tools, portable gasoline powered equipment, service equipment, small mixers, lawn and garden equipment, printing equipment, leased furniture and fixtures, etc. These schedules are also for property which is typically rented on an hourly or daily basis.			
<u>REPAIR SHOP EQUIPMENT</u>	17	A	10
Includes electrical, watch, clock, jewelry, radio, TV, upholstery, furniture, household appliances, welding, locksmith, shoe, etc.			
<u>* RESTAURANT, BAR AND SODA FOUNTAIN EQUIPMENT</u>	20	E	10
Includes all eating and drinking establishments selling prepared food and/or drinks, as well as equipment installed on food trucks.			
Televisions	18	B	5
<u>RUBBER PRODUCTS</u>	17	A	14
Includes the manufacture of finished rubber products.			

* Indicates a change from the previous year's publication.

<u>MAJOR CATEGORY</u>	<u>Page</u>	<u>Schedule</u>	<u>Life</u>
<u>SCALES</u>			
10 - 25 Tons	17	A	20
Less than 10 Tons	17	A	10
Portable	17	A	10
<u>SCHOOL EQUIPMENT</u>	20	D	10
<u>SCRAP METAL</u>	17	A	10
Equipment used in the cutting, wrecking, and storing of scrap metals.			
<u>SIGNS OTHER THAN BILLBOARDS</u>	24	N	10 - 20
Includes on and off premise signs erected for the purpose of information and direction. If the sign is considered a "logo" type, it should be listed at historical cost and depreciated on a 10 to 20-year life.			
<u>STONE AND CLAY PRODUCTS EXCEPT CEMENT</u>	17	A	15
Includes the manufacture of structural clay products such as brick, tile, pipe, etc. The category also includes pottery and related products such as vitreous china, plumbing fixtures, earthenware, ceramic insulating materials, asphalt building materials, gypsum and plaster products, cut and finished stone and abrasives, asbestos, and miscellaneous non-metallic mineral products.			
<u>STORE EQUIPMENT</u>			
A. Retail, Wholesale and Supply	20	D	10
Includes general merchandise, building materials, hardware, apparel, accessory, furniture, home furnishings, equipment, jewelry, food, grocery, wholesale, supply, and miscellaneous retail store equipment, etc.			
B. Point of Sale (POS) and Proprietary Computerized POS Units	20	D	6
Includes peripherals, hand held computers and electronic cash registers. It <u>does not</u> include personal computers used as POS terminals or computers acting as servers. See <i>Data Processing Equipment</i> .			

* Indicates a change from the previous year's publication.

<u>MAJOR CATEGORY</u>	<u>Page</u>	<u>Schedule</u>	<u>Life</u>
<u>STRAIGHT LINE SCHEDULES</u>	24	N	
When using the straight line schedules, a residual value of 25% remains in effect unless variation is indicated by the property being appraised.			
<u>TELECOMMUNICATIONS SWITCH MANUFACTURING</u>			
Switch Manufacturing Equipment	27	U	8
Switch Testing Equipment	27	U	6
<u>TESTING EQUIPMENT</u>	25	R	8
Includes equipment used in research and development.			
<u>* TEXTILE MILL PRODUCTS</u>	17	A	10
Includes the manufacture of spun, woven or processed yarns and fabrics from natural or synthetic fibers.			
Textile finishing and dyeing	17	A	8
 <u>Note:</u> For idle equipment see <i>Idle Equipment</i> . A 5% residual for assets acquired in 2009 and earlier remains applicable if deemed appropriate by the appraiser. This includes machinery and equipment used for yarn spinning, fabric knitting and weaving, or dye and finishing. Non-woven materials should be assessed on the appropriate schedule with a 25% residual. See <i>Apparel and Other Finished Products</i> .			
<u>THEATER EQUIPMENT</u>	20	D	10
<u>TOBACCO AND TOBACCO PRODUCTS MANUFACTURING</u>			
	17	A	15
<u>TOOLS, MOLDS, DIES AND JIGS</u>	24	N	2 - 7
Special tools are defined as tools used in manufacturing; such as molds, dies, and jigs which are specifically designed for the production or processing of particular parts and have no significant utilitarian value and cannot be adapted to a further or different use after changes or improvements are made in the model design of the particular part produced by the special tools. This category excludes general purpose small tools.			

Note: It will be necessary to determine from the manufacturer the average life of this category of property. Once the proper life has been determined, apply the straight-line Schedule N.

* Indicates a change from the previous year's publication.

<u>MAJOR CATEGORY</u>	<u>Page</u>	<u>Schedule</u>	<u>Life</u>
<u>TRANSPORTATION EQUIPMENT</u> 18 This category includes the manufacture of motor homes, campers, and motorcycles.	18	B	12
<u>VENDING EQUIPMENT</u> 24 Includes food, beverages, cigarettes, change, newspapers, photo, stamps, breathalyzer, cellphone analysis, movies, games, tools, keys, used electronics, etc.	24	N	6
Automatic Bulk Ice Vending Machines 18	18	B	8
* <u>WAREHOUSE AND DISTRIBUTION CENTERS</u> 17 Establishments primarily engaged in operating merchandise warehousing and distribution facilities. Includes warehouse material handling equipment, such as forklifts and pallets.	17	A	10
<u>WASTE MANAGEMENT</u> 18 Includes assets and equipment used in the collection and management of household garbage and similar waste; Green Box containers; toters; and similar equipment.	18	B	8
* <u>WATER, WASTEWATER AND SEWAGE TREATMENT</u> 26 Includes assets and equipment used in operating water treatment plants, water supply systems, sewer systems, and sewage treatment facilities.	26	T	18
<u>WIRE PRODUCTS MANUFACTURING</u> 17 Establishments primarily engaged in the manufacture of wire.	17	A	14
<u>WOODWORKING EQUIPMENT</u> 20	20	F	10

* Indicates a change from the previous year's publication.

2008	16	1.37		59	93	1983	41	4.06		73
2007	17	1.40		55	93	1982	42	4.81		77
2006	18	1.42		51	91	1981	43	4.98		70
2005	19	1.43		46	88	1980	44	5.20		62
2004	20	1.47		42	88	1979	45	5.53		55
2003	21	1.50		37	87	1978	46	5.94		48
2002	22	1.51		32	85	1977	47	6.22		37
2001	23	1.53		27	83	1976	48	6.50		26
2000	24	1.56		25	81	1975	49	6.77		
1999	25	1.63			82	1974	50	6.80		

Note: When the rate of inflation is greater than the rate of depreciation, the calculated percent good factor will exceed 100. When this occurs, the assessed value will be higher than the listed cost when appraising using the cost approach.

Do not apply the trend factors to the percent good factors. The percent good factors already have the trend factors incorporated. This is true for all schedules in this manual.
