2025 Annualized Income Installment Worksheet

Name(s) shown on tax return

Social Security Number

Instructions

If you do not receive your income evenly throughout the year because, for example, you operated your business on a seasonal basis, your required estimated tax payment for one or more periods may be reduced by completing the 2025 Annualized Income Installment Worksheet. *(For additional information on determining estimated tax, see Form D-422, Underpayment of Estimated Tax by Individuals. For details, visit ncdor.gov.)*

The annualized income installment method annualizes your tax at the end of each period based on a reasonable estimate of your income and deductions relating to events that occurred from the beginning of the tax year through the end of the period. To see whether you were required to pay less for any period, complete the worksheet below.

If you use the 2025 Annualized Income Installment Worksheet for any payment due date, you must use it for all payment due dates. To arrive at the amount of each required installment, the worksheet automatically selects the smaller of the annualized income installment or the regular installment (increased by the amount saved by using the annualized income installment

method in figuring earlier installments.) If you use the annualized income installment method, you must enter the amount of Line 25 from the worksheet below on Form D-422, Line 16, for each column, and check the box on that line. **Important:** If you annualized income, you must enter the letter **E** in the exception box located next to Line 26e of Form D-400 to avoid receiving an assessment for underpayment of estimated tax. *(For more information on exceptions to underpayment of estimated tax, see Form D-401. For details, visit ncdor.gov.)*

Important Information for Part-Year Residents and Nonresidents: Part-year residents and nonresidents should complete only the column(s) for the period(s) in which they had income from North Carolina sources. For example, if the income from North Carolina sources was received in November only, complete only the last column. In addition, part-year residents and nonresidents must multiply any amount(s) on Line 15 by the decimal amount shown on Form D-400, Line 13, before determining the tax on Line 16, Form D-422A.
