The Taxability Matrix contains four sections that must be completed: Section A - Administrative Definitions, Section B - Sales Tax Holidays, Section C - Product Definitions and Section D - Tax Administration Practices.

Instructions for Sections A, B and C of the Taxability Matrix

Each of the items listed in Sections A, B and C below are defined in the Library of Definitions in the Streamlined Sales and Use Tax Agreement (SSUTA) as amended through May 13, 2015. Refer to Appendix C of the SSUTA for each definition.

Place an "X" in the appropriate column under the heading "Treatment of definition" to indicate the treatment of each definition in your state. If a product definition was not adopted by your state, enter "NA" in the column under the heading "Reference" and indicate in the "Treatment of definition" columns the treatment of the product in your state. In accordance with the SSUTA, your state must adopt the definitions in the Library of Definitions that apply to your state without qualifications, except for those allowed by the SSUTA. For this reason, do not enter any comments or qualifications in the two columns under the heading "Treatment of definition." If your state has adopted a definition in the Library of Definitions with a qualification not specified in the SSUTA, do not place an "X" in either column under the heading "Treatment of definition" but include a comment in the "Reference" column explaining the qualification. Enter the applicable statute/rule cite in the "Reference" column.

Instructions for Section D of the Taxability Matrix

With respect to Section D, "tax administration practices" have been selected by the Streamlined Sales Tax Governing Board (SSTGB) for each of the products, procedures, services, or transactions identified pursuant to Section 335 of the Streamlined Sales and Use Tax Agreement (SSUTA), as amended through May 13, 2015.

Use of the term "State" in each practice refers to the state completing the matrix.

Place an "X" in the appropriate column to indicate whether your State does or does not follow each practice identified.

For each practice identified in this matrix and further described in Appendix E of the SSUTA which your State follows, place an "X" in the "Yes" column and enter the statute or rule that applies to your state's treatment of this practice in the References and Comments column.

For each practice identified in this matrix and further described in Appendix E of the SSUTA that your State does not follow, place an "X" in the "No" column and, if necessary, describe in the References and Comments column your state's practice in this area.

Conformance to a "tax administration practice" by a state is voluntary and no state shall be found not in compliance with the Agreement if it does not follow a tax administration practice selected by the Governing Board.

Sellers and certified service providers are relieved from tax liability to the member state and its local jurisdictions for having charged and collected the incorrect amount of sales and use tax resulting from the seller or certified service provider relying on erroneous data provided by the member state relative to treatment of the terms defined in Sections A, B and C and the tax administration practices indicated in Section D.

| Definition  | "Tax Paid" means the tax that was (1) paid and (2) previously due from either the seller or the purchaser when the sale of that product is taxable in that state and it was properly sourced based on that state's sourcing rules. "Tax paid" includes tax that was (1) paid and (2) previously due from the purchaser (or seller, if applicable) because the purchaser moved the product to a different jurisdiction. "Tax paid" does not include the portion of tax paid that is currently eligible for a credit or refund or tax paid that is eligible for refund under a tax-incentive program or agreement. |                |                                      |  |  |
