Instructions

Purpose of Form. - Use this form to see if you owe a penalty for underpaying your estimated tax. Complete Part I to determine the required annual payment. Complete either Part II or Part III to determine the penalty that you owe. If you were not required to file a 1999 North Carolina income tax return, **STOP HERE.** You do not owe the penalty and you do not have to complete this form.

Farmers and Fishermen: If you are a farmer or a fisherman and pay the tax due by March 1, 2001, you do not owe a penalty. Enter the letter F in the penalty exception box next to line 23b of Form D-400.

Short Method

You may use the short method only if:

- You made no estimated tax payments (or your only payments were withheld North Carolina income tax); OR
- You paid estimated tax in four equal amounts on the due dates.

NOTE: If you made estimated tax payments, the short method will give the precise penalty amount only if your payments were made exactly on the due dates. If any payment was made earlier than the due date, you may use the short method, but using it may cause you to pay a larger penalty than the regular method. If the payment is only a few days early, the difference will generally be

small. **Do Not** use the short method if you made any of your payments late. **Important:** A farmer or fisherman cannot use the short method to determine the penalty since the penalty for a farmer or fisherman is determined in the last quarter only.

Regular Method

Use the regular method to figure the penalty if you are not eligible to use the short method. To use the regular method, complete Part I below and Part III on the back.

Line-By-Line Instructions

Line 6 - If this line is less than \$1,000, you do not owe a penalty.

Line 7 - Figure your 1999 tax by subtracting the tax credits on lines 14 and 21 from the tax on line 13 of your 1999 return. If you were required to file a return for 1999 but have not filed, do not complete this line. Instead, enter the amount from line 4 on line 8.

Line 16 - If your income varies during the year, for example you receive unexpected or seasonal income not subject to withholding in April or later, you may be able to lower the amount of your penalty by completing Form D-422A, Annualized Income Installment Worksheet. If you annualize your income for any payment period, you must annualize it for all periods.

Line 17 - Complete line 17 as follows:

- You are considered to have paid any withheld State income tax evenly over the period you worked during the year unless you can show otherwise. If you worked all year, divide the total amount withheld by 4, and enter the result in each column.
- Include your estimated tax paid for each payment period. Also include any 1999 overpayment of tax which you elected to apply to your 2000 estimated tax. If you file your return and pay the tax due by January 31, 2001, include on line 17, column (d), the amount of tax you pay with your return.

Line 23 - If line 23 is zero for all payment periods, you do not owe a penalty.

Line 25 - Figure the number of days after the due date of an installment through the date the estimated tax was paid or through April 15, 2001, whichever is earlier, regardless of which installment the payment was for. For example, if line 23, column (a) shows an underpayment, any later payment of estimated tax is considered the date line 23, column (a) was paid to the extent of the underpayment. If April 15, 2001, is earlier, enter 365, 304, 212, and 90 respectively in columns (a), (b), (c), and (d).

Part I. Required Annual Payment - All filers must complete this part.
