

NC-478J - Creating New Jobs

The credit for creating new jobs is based upon the development tier of the area in which new jobs are located and is taken in four equal installments beginning in the tax year following the year in which the jobs are created. Any unused portion of the credit may be carried forward for five succeeding years. In addition, to claim the credit for creating new jobs you must provide all the eligibility information requested on the Article 3J Supplement.

The following instructions for completing Part 1 through Part 3 of NC-478J apply to individuals, S corporations claiming the credit against franchise tax, and C corporations. Partnerships, S corporations claiming the credit against income tax, and other pass-through entities, see the specific instructions for pass-through entities located after the instructions for Part 3.

Part 1. Computation of Credit for Jobs Created in 2012. *(The information requested for Part 1 is for a single county at which jobs were created during tax year 2012. If jobs were created at more than one county in 2012, complete a separate NC-478J for each county.)*

Line 1. Enter the county at which new jobs were created.

Line 2. Enter the average number of full-time employees in North Carolina during 2012. The average number of full-time employees is determined by dividing the number of full-time employees on the last day of each month by 12. A taxpayer creates a new full-time job if the taxpayer has an additional full-time employee in North Carolina at the end of the current tax year compared to the end of the previous tax year. A full-time job is a position that requires at least 1,600 hours of work per year and is intended to be held by one employee during the entire year. **(Note.** *The information requested on Part 1, Line 2 is the average number of additional full-time employees in North Carolina during the tax year and will be the same number on all NC-478Js filed for tax year 2012.*)
