General Instructions

Effective September 1, 2009, the North Carolina General Assembly increased the excise tax on cigarettes from 1.75¢ per cigarette to 2.25¢ per cigarette. Due to this increase, all distributors must complete an inventory of all North Carolina tax-paid cigarettes on September 1, 2009 and pay any additional excise tax due on or before September 21, 2009.

Part 1. Computation of Increased N.C. Cigarette Excise Tax

Complete Part 1, Lines 1 through 5 to determine the amount of additional excise tax due. The additional excise tax is calculated based on the difference between the former rate of 1.75¢ per cigarette and the new rate of 2.25¢ per cigarette. Each distributor must include all N.C. cigarettes on which tax has been paid or will be paid with Form B-A-5, Monthly Report of Resident Cigarette Distributor, or B-A-6, Monthly Report of Nonresident Cigarette Distributor, for the period ending August 31, 2009, and all cigarettes purchased tax paid by the distributor, including stale or unsalable packs. **Important.** All unsalable cigarettes that the distributor intends to return to the manufacturer and apply for a refund of excise tax paid should be returned to the manufacturer prior to September 1, 2009 to avoid paying the additional tax. Absent conclusive proof to the contrary, refunds of excise tax on returned product received by the manufacturer prior to September 1, 2010 will be refunded at the rate of 1.75¢ per cigarette (the rate prior to September 1, 2009).

Complete Line 8 to determine the amount of penalty due if the report is received after September 21, 2009.

Complete Line 9 to determine the amount of interest due if payment of the additional tax due is received after September 21, 2009. Interest accrues from the time the additional tax is due until the time of payment. The Secretary of Revenue establishes the interest rate on a semiannual basis.
