It is recommended that you refer to the FTA Uniformity Guide to implement the Motor Fuels Uniformity methods.

Chapter 1 - Introduction

The North Carolina Department of Revenue (Department) is implementing an electronic filing program. Both returns and payments will be accepted in the Department's electronic filing program. The following returns are included in the new filing program, as well as payments for any of these returns:

- Gas-1202: Motor Fuel Supplier Return
- Gas-1204: Motor Fuel Terminal Operator Return
- Gas-1301: Motor Fuel Transporter Return

General Information

Electronic Data Interchange (EDI) is the exchange of business documents from one company's computer to another company's computer in machine-processable formats. Purchase orders, invoices, and tax forms can all be exchanged via EDI. Using EDI to exchange business information reduces the expense associated with processing paper (sorting mail, opening envelopes, logging in of documents, etc.). In addition, the costs, errors and time delays associated with data entry are also reduced. Diverse industries have found that EDI makes tremendous economic sense. Government agencies also see the value in reducing the paper-intensive filing of motor fuel returns by implementing EDI.

Advantages

Trading partners using EDI are able to reduce paperwork and costs of handling that paperwork.

- Filing via EDI eliminates postal delays and associated late filing penalties.
- Data entry errors are greatly reduced.
- Fuel Tracking and Cross Matching will be computerized, giving the Department tools to reduce fraud, and therefore giving fuel distributors a level playing field.
- Complete audit trail of tax forms and schedules.

This EDI Implementation guide follows version 4030 of the EDI ANSI ASC X12 standards. This guide's purpose is to assist you in implementing and filing EDI for motor fuel returns and associated schedules.

Contact Information

EDI Coordinator:	Patty Cheng

Note:	All correspondence should be sent to the following address: North Carolina Department of Revenue Excise Tax Division 3301 Terminal Drive, Suite 125 Raleigh, NC 27604
-------	---

Understanding EDI

EDI is used extensively in industry. For example, the retail and manufacturing industries submit purchase orders, cut invoices, process shipping notifications, and remit payments; all electronically. Accuracy is increased and cost is reduced. Because documents are filed electronically, businesses no longer need to store large quantities of paper documents.

EDI may seem complex, but once the basics are understood, the concept is really quite simple. As stated earlier, EDI is a method to electronically exchange business documents using a standard format. To facilitate this exchange of documents, two things are needed. First, the taxpayer (or trading partner) needs a method to send and receive electronic documents. Second, the taxpayer needs software to translate schedules and tax returns into the standard EDI format.

EDI Version

North Carolina is using the ANSI ASC X12 Version Release 004030 EDI standards for the EDI 813 (Electronic Filing of Tax Return Data) and the EDI 820 (ACH Debit Payment) transaction set. Many states have implemented, or are planning on implementing, the EDI 813 for motor fuel tax filing. Previous releases of the EDI 813 transaction set allowed for individual state variations in EDI filing. Version 4030 promotes uniformity in motor fuel tax filing. As more states migrate to the 4030 version, filers will be able to create a more generic EDI map, reducing the effort needed to track individual state variations.

EDI Filing Method

The Department will accept EDI files via a secure web application. For more information about filing procedures, see Appendix B on Filing Procedures.

EDI 813 File Naming Convention

Format: **NCacct_rpt_ccyymm_nn.edi**

- “NC” is the state abbreviation
- “acct” is the 11 digit State Account Number
- “rpt” is a three character return type
 - “SDR” – Supplier
 - “CCR” – Transporter
 - “TOR” – Terminal Operator
 - “CBF” – Combined Returns
- “ccyymm” is the reporting period year and month
- “nn” represents an original or amended sequence
 - “00” for an original return (including resubmissions of an original)
 - “01” for the first amended return
 - “02” for the second amended return
 - etc.

Examples:

NC11122233301_CBF_200501_00.edi

- “NC” for North Carolina
- “11122233301” for the 11 digit State Account Number
- “CBF” the file contains more than one return type (Supplier and/or Terminal Operator and/or Transporter)
- “200501” for the reporting year and month
- “00” the file contains an original return

NC11122233301_SDR_200501_01.edi

- “NC” for North Carolina
- “11122233301” for the 11 digit State Account Number
- “SDR” the file contains only the Gas 1202 Supplier Return
- “200501” for the reporting year and month
- “01” the file contains the first amended Supplier Return

The Department prefers to receive all returns in a single file (using separate 813 Transaction Sets). However, the filer can choose to send each Supplier Return, Terminal Operator Return, and Transporter Return in a separate file. Do not include returns in the same file as the 820 transaction sets.

EDI 820 File Naming Convention

- Format: **NCacct_PAY_ccyymm_nn.edi**
- “NC” is the state abbreviation
 - “acct” is the 11 digit State Account Number
 - “PAY” indicates payment
 - “ccyymm” is the reporting period year and month
 - “nn” represents an original or amended sequence
 - “00” for an original payment (including resubmissions of an original)
 - “01” for the first subsequent payment
 - “02” for the second subsequent payment
 - etc.

- Examples: **NC11122233301_PAY_200501_00.edi**
- “NC” for North Carolina
 - “11122233301” for the 11 digit State Account Number
 - “PAY” indicates a payment
 - “200501” for the reporting year and month
 - “00” the file contains an original return

- NC11122233301_PAY_200501_02.edi**
- “NC” for North Carolina
 - “11122233301” for the 11 digit State Account Number
 - “PAY” indicates a payment
 - “200501” for the reporting year and month
 - “01” represents the first subsequent payment

The Department prefers to receive all payments in a single file (using separate 820 Transaction Sets). However, the filer can choose to send each payment in a separate file. Do not include payments in the same file as the 813 transactions sets.

EDI File Structure

Each 813 (return) must be submitted with its own ST loop (ST segment through SE segment). Multiple ST-SE loops can be submitted under one ISA envelope or each can be sent under a separate ISA envelope. However, since the ISA15 controls the test/production indicator; test and production returns cannot be combined under the same ISA envelope.

Each 820 (payment) must be submitted with its own ST loop (ST segment through SE segment). Multiple ST-SE loops can be submitted under one ISA envelope or each can be sent under a separate ISA envelope. However, since the ISA15 controls the test/production indicator; test and production returns cannot be combined under the same ISA envelope.

Note: Each EDI file must contain either all 813 transaction sets or all 820 transaction sets. The two transaction sets should never be included in one file.

Available EDI Filing

The following returns may be filed via EDI:

- Gas-1202: Motor Fuel Supplier Return
- Supporting Schedules for Gas-1202
 - Supplier Schedule of Tax-Paid Receipts
 - Supplier Schedule of Disbursements
- Gas-1204: Motor Fuel Terminal Operator Return
- Supporting Schedules for Gas-1204
 - Terminal Operator Schedule of Receipts
 - Terminal Operator Schedule of Disbursements
- Gas-1301: Motor Fuel Transporter Return
- Supporting Schedules for Gas-1301
 - Schedule of Deliveries

Payments for the Gas-1202, Gas-1204 and Gas-1301 may also be filed via EDI.

EDI 813 Timely Filing

The due date for filing your Motor Fuel Tax Return and Schedules via EDI is the same as if you had filed a paper return. This means the EDI filing must be both transmitted and received by the Department on or before the due date.

Due dates for each return follow:

Gas-1202: Motor Fuel Supplier Return

The Supplier return is due on or before the 22nd day of the month following the month of activity.

Gas-1204: Motor Fuel Terminal Operator Return

The Terminal Operator return is due the 22nd of the month following the month of activity.

Gas-1301: Motor Fuel Transporter Return

The Transporter Return is due the 22nd of the month following the month of activity.

If a return due date falls on a holiday or weekend, the tax return is due no later than the first business day after the holiday or weekend. The Department bases timely returns on the date of receipt of the electronic return.

HOLIDAY SCHEDULE

New Year's Day	January 1 st
Martin L. King Day	Third Monday in January
Good Friday	Three days before Easter
Memorial Day	Last Monday in May
Independence Day	July 4 th
Labor Day	First Monday in September
Veteran's Day	November 11 th
Thanksgiving Day	Fourth Thursday in November and Friday after Thanksgiving
Christmas Day	December 24 th , December 25 th , and December 26 th

NOTE: State Holiday - When a legal holiday falls on a Sunday, it will be observed on the following Monday. When a legal holiday falls on a Saturday, it will be observed on the preceding Friday.

EDI 820 Timely Payment

The due date for paying your Motor Fuel Tax payments via EDI is the same as if you had sent an EFT payment or check. This means the EDI payment must be both transmitted and received by the Department on or before the due date.

The payment due date for the **Gas-1202 Motor Fuel Supplier Return** is on or before the 22nd day of the month following the month of activity.

If a tax due date falls on a Saturday, Sunday, or a State or bank holiday, the deposit by EDI is required on or before the next banking day. If the initiation date falls on a Saturday, Sunday, or a State or bank holiday the transaction by EDI must be initiated on the preceding business day.

EDI 813 Certification Procedures

- 1) Prior to submitting an EDI file for testing you must complete a Trading Partner Agreement and mail an original signed copy to the Department. A copy of the Trading Partner Agreement can be found in Appendix A.
- 2) You are required to file returns online by manually keying returns in the online application until you have successfully completed the EDI certification phase and are approved for EDI production using Version 4030.
- 3) Three successful transmissions of different filing period returns satisfy the certification phase. You must submit test files for each type of return you file. Please submit your three most current month's tax returns as your test returns.
- 4) The files are processed each business day, translated and reviewed by the Department. Please view your message folder from the Main Menu of the Fuel Tracking System. Your message will be available within 24 hours after the date of transmission.
- 5) After receiving each test, we will notify you of the results.
- 6) After successfully completing all phases, you will be notified that you may begin production EDI filing of your returns.
- 7) Whenever you make a significant change to your program, you should run another test with us to ensure accuracy and reliability.

EDI 820 Certification Procedures

- 1) Prior to submitting an EDI file for testing you must complete a Trading Partner Agreement and mail an original signed copy to the Department. A copy of the Trading Partner Agreement can be found in Appendix A.
- 2) You are required to make payments using your current method until you have successfully completed the certification phase and are approved for production using Version 4030.
- 3) Two successful transmissions of Supplier Return Payments satisfy the certification phase.
- 4) The files are processed each business day, translated and reviewed by the Department. Please view your message folder from the Main Menu of the Fuel Tracking System. Your message will be available within 24 hours after the date of transmission.
- 5) After receiving each test, we will notify you of the results.
- 6) After successfully completing all phases, you will be notified that you may begin production EDI filing of your payments.
- 7) Whenever you make a significant change to your program, you should run another test with us to ensure accuracy and reliability.

EDI 813 Production Filing Procedures

1. Before filing a production return, your company must be certified by the Department's EDI Coordinator. See EDI Certification Procedures for further instruction on test filings.
2. After completing the certification phase, you will be notified when you are to begin production EDI filing.
3. When filing a production return, remember to change your ISA15 (test/production flag) from 'T' to 'P'.
4. Follow the steps listed in Appendix B (Filing Procedures) to transmit your file.
5. Confirm receipt of your EDI filing by viewing your message folder from the Main Menu of the Fuel Tracking System. Your message will be available within 24 hours after the date of transmission. If you have not received a message within 24 hours, it is your responsibility to contact the Department.

EDI 820 Production Filing Procedures

1. Before filing a production payment, your company must be certified by the Department's EDI Coordinator. See EDI Certification Procedures for further instruction on test filings.
2. After completing the certification phase, you will be notified when you are to begin production EDI payments.
3. Filers sending payments in production should not double-pay by initiating EFT payments or sending checks.
4. When filing a production payment, remember to change your ISA15 (test/production flag) from 'T' to 'P'.
5. Follow the steps listed in Appendix B (Filing Procedures) to transmit your file.
6. Confirm receipt of your EDI payment by viewing your message folder from the Main Menu of the Fuel Tracking System. Your message will be available within 24 hours after the date of transmission. If you have not received a message within 24 hours, it is your responsibility to contact the Department.

EDI Acknowledgments

Normally vendors/taxpayers will be able to view messages within 24 hours after transmission of the EDI tax filing. Check the message to determine that the filing was received and whether it passed EDI syntax checks. If the vendor/taxpayer cannot retrieve the message within 24 hours, he should contact the Department.

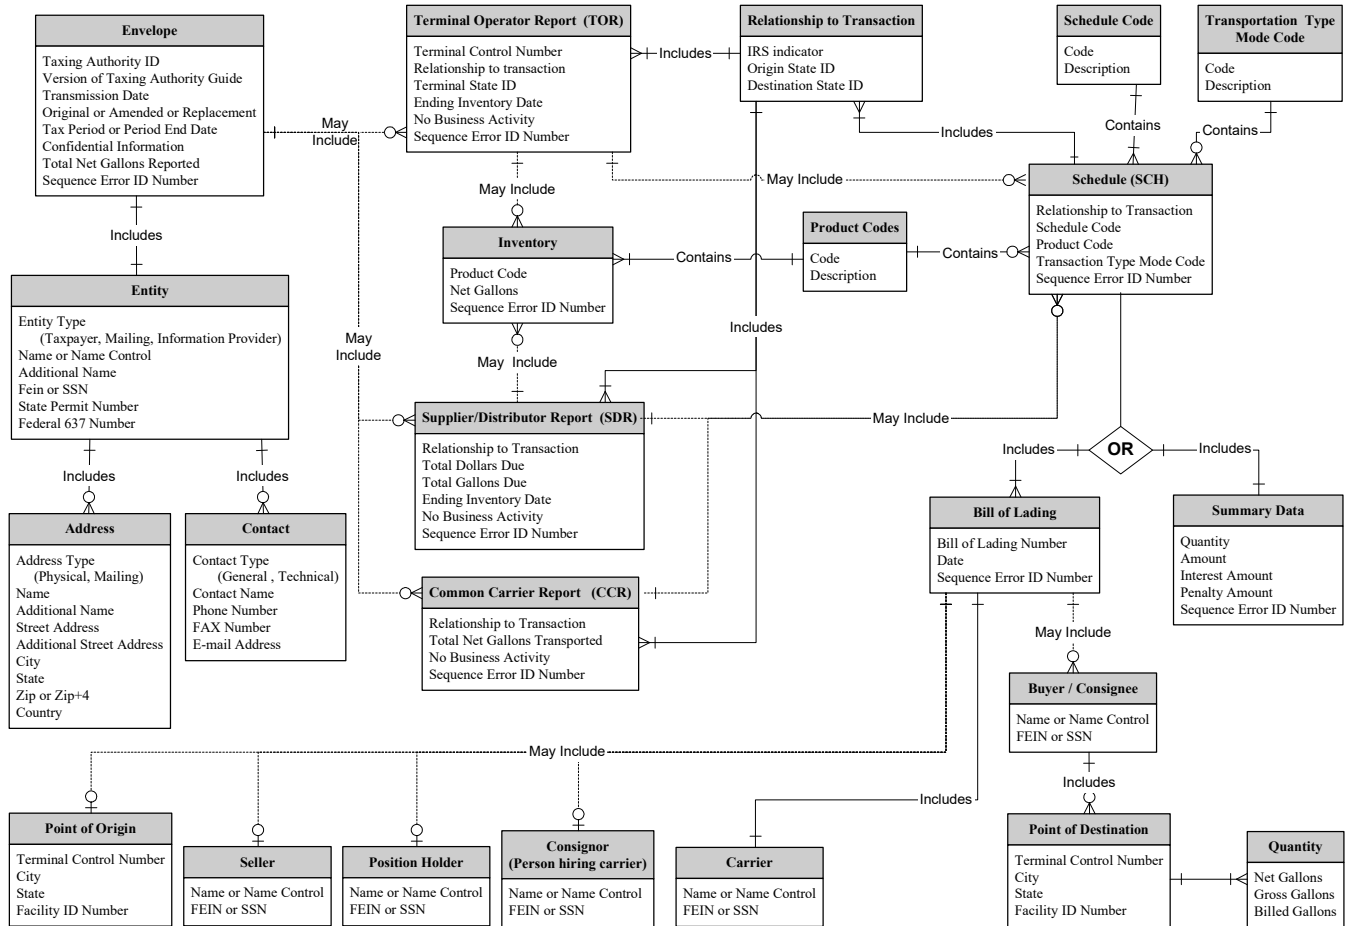

If the message cannot be retrieved within 24 hours it is the vendor/taxpayer's responsibility to follow up and contact the Department.

Please note that receipt of the message only signifies that the EDI tax filing was received by the Department; it does not signify that the electronic return and schedules were an acceptable filing. The electronic return and schedules will be checked further for accuracy. The Department will contact the vendor/taxpayer if there are any questions regarding the return, or if any corrections are required.

FTA Review

This guide was submitted to the FTA Uniformity Committee for approval and was approved June 10th, 2005.

Chapter 2 - Motor Fuels X12 Data Model

Chapter 3 – X12 Attribute and Separator Conventions

Attributes

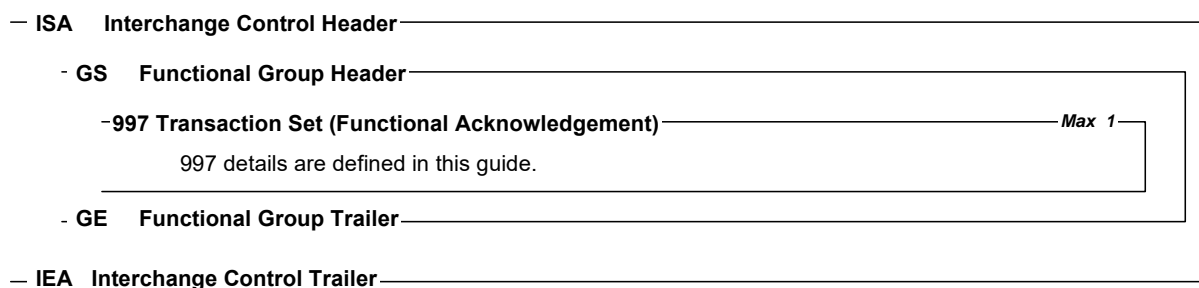

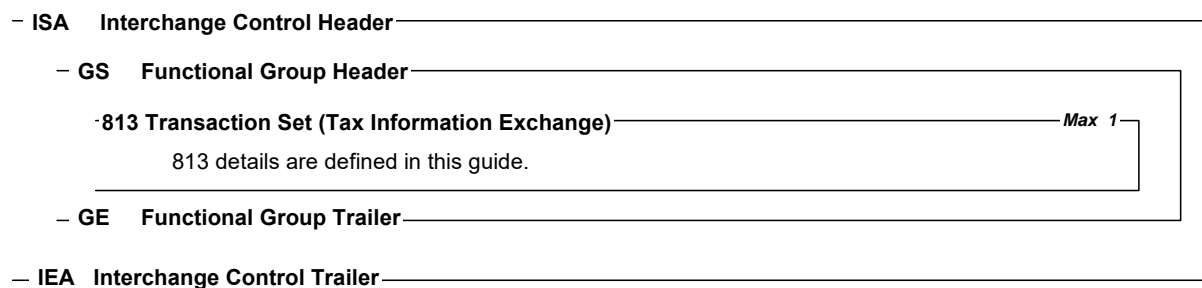

Attribute	Definition
Data Element Type	<p>Nn – Numeric Numeric type data element is symbolized by the two-position representation (Nn). N indicates a numeric, and n indicates the decimal places to the right of a fixed, implied decimal point. N0 (N Zero) is a numeric with no decimal places.</p> <p>R – Decimal (Real) The decimal point is optional for integer values, but is required for fractional values. For negative values, the leading minus (-) sign is used. Absence of this sign indicates a positive value. The plus (+) sign should not be transmitted.</p> <p>ID – Identifier An identifier data element must always contain a value from a predefined list of values that is maintained by ASC X12 or by other bodies that are recognized by ASC X12.</p> <p>AN – String A string (Alphanumeric) is a sequence of any characters from the basic or extended character sets. It must contain at least one non-space character. The significant characters must be left justified. Leading spaces, if any, are assumed to be significant. Trailing spaces should be suppressed.</p> <p>DT – Date Format for the date type is CCYYMMDD. CC is the century digits of the year (ex. 19, 20). YY is the last two digits of the year (00-99), MM is the numeric value of the month (01-12), and DD for the day (01-31).</p> <p>TM – Time Format for the time type is HHMMSS, expressed in 24-hour clock format. HH is the numeric value for hour (00-23), MM for minute (00-59), and SS for second (00-59).</p>
Requirement Designator	<p>Defines how the data element is used in a segment.</p> <p>M Mandatory data element - This element is required to appear in the segment.</p> <p>O Optional data element - The appearance of this data element is at the option of the sending party or is based on a mutual agreement of the interchange parties.</p> <p>X Relational data element - Relational conditions may exist between two or more data elements. If one is present the other/s is required. The relational condition is displayed under the Syntax Noted of the X12 Standards.</p>
Data Element Length	The number of character positions assigned to a data element. Example: Data element length of 2/10. You must have at least 2 characters but no more than 10 characters for this element (minimum of 2/ maximum of 10).
Semantic Note Designator	<p>Z – Designator A data element within a segment may have a designator (Z) that indicates the existence of a semantic note. Semantic notes are considered part of the standard. If a condition designator and a semantic note both affect a single data element, the condition will appear first, separated from the semantic note designator by a vertical bar (). The number 00 to the left of the comment identifies semantic notes that are general in nature.</p>

Separator Requirements

Type	ASCII Value	EBCDIC Value	Character	Character Name
Repetition Separator	7C	4F		Pipe
Segment Terminator	5C	E0	\	Back Slash
Element Separator	7E	A1	~	Tilde
Sub-element Separator	5E	5F	^	Caret
Padding Character	20	40	Space	Space

ANSI ASC X12 – 813 EDI Standard

RELEASE • 004030

TRANSACTION SET TABLES • 813

813 Electronic Filing of Tax Return Data

FUNCTIONAL GROUP: **TF**

This Draft Standard for Trial Use contains the format and establishes the data contents of the Electronic Filing of Tax Return Data Transaction Set (813) for use within the context of an Electronic Data Interchange (EDI) environment. This transaction set can be used by tax filers to electronically file tax returns with a federal, state, or local taxing authority and which may initiate payments related to the tax return.

Changes loop repeat value in table/positions 1/0500, 2/0500 and 2/1300.						6 205299

NOTES

- 1/0400 The TIA segment allows for tax information and amounts associated with the entire filing. At least one occurrence of the TIA segment must be present in the transaction set, either in Table 1 or Table 2.
- 1/0500 This N1 loop reflects names and addresses associated with the entire filing.
- 2/0500 This N1 loop reflects names and addresses associated with a particular tax form (TFS).
- 2/0920 At least one occurrence of the TIA segment must be present in the transaction set, either in Table 1 or Table 2.
- 2/1300 This N1 loop reflects names and addresses associated with a particular subset of a tax form.
- 2/1800 At least one occurrence of the TIA segment must be present in the transaction set, either in Table 1 or Table 2.

813 Map Flow

813 Map/Envelope Structure

One or more 813 transaction sets can be included within an ISA/GS envelope. An ISA/GS envelope may contain all 813 transactions or all 820 transactions; different transaction sets may not be mixed in an envelope.

Key:

Not Used	Not used: no data to transmit
Syntax Notes	Note: Notes defined by X12 Standards
FTA Notes	Note: Notes defined by FTA Uniformity
NC Notes	Note: Notes defined by the North Carolina Department of Revenue to further clarify the Department's requirements
Struck-out Text	Text, elements or entire segments that are struck out (example), are part of the Uniform map, but are not used by North Carolina

Transaction Set Header Description

Beginning of Transaction Set Header Segment								(Required) Pos. No. 0100
Element ID	Elem Ref #	Sub-Ele Ref #	Field Status	Field Name	Field Type	Length Min Max		Field Description
ST01	143		M	Transaction Set Code	ID	3	3	Transaction Set Type "813"
ST02	329		M	Transaction Set Control Number	AN	4	9	Filer defined unique control number (same value as SE02)
ST03	1705		O/Z	Implementation Convention Reference	AN	1	5	Version of Taxing Authority's implementation Guide "1.0" = North Carolina Version
ST~813~1001~1.0\								
Syntax Notes: None								
FTA Note: It is recommended that the ST03 be used to help identify which implementation guide the trading partner is using. This element will help the receiver of the data determine if the sender is using an old guide or the most current guide for the data transmission.								
NC Notes: North Carolina requires use of ST03								

Identify Tax Agency Information Begin Tax Information Segment								(Required) Pos. No. 0200
Element ID	Elem Ref #	Sub-Ele Ref #	Field Status	Field Name	Field Type	Length Min Max		Field Description
BTI01	128		M	Reference Number Qualifier	ID	2	2	"T6" = Defines as Tax Filing
BTI02	127		M	Reference Number	AN	3	3	Determined by FTA "050" = All Fuels Tax Filings
BTI03	66		M	ID Code Qualifier	ID	2	2	"47" = Tax Authority
BTI04	67		M	ID Code	AN	2	20	Determined by Tax Authority "NCMOTORFUELS"
BTI05	373		O	Transaction Create Date	DT	8	8	"CCYYMMDD" = Transmission Date
BTI06	818		O	Name Control ID	AN	4	4	First 4 positions of Taxpayer's Legal Business Name. If business name is less than 4 characters, left justify name control and pad with "***".
BTI07	66		X	ID Code Qualifier	ID	2	2	"24" = FEIN Federal Employer Identification Number "34" = Social Security Number "50" = Canadian Business Number
BTI08	67		X	ID Code	AN	9	18	Taxpayer's FEIN or SSN or Canadian Business Number
BTI09	66		X	ID Code Qualifier	ID	2	2	"49" = State (assigned) Identification Number
BTI10	67		X	ID Code	AN	2	20	License or Permit Number
BTI11	66		X	ID Code Qualifier	ID	2	2	"SV" = Electronic Filer ID Number
BTI12	67		X	ID Code	AN	9	15	State assigned Software Identification
BTI13	353		O	Transaction Set Purpose Code	ID	2	2	Original Filing Options: "00" = Original
BTI14	640		O	Transaction Type Code	ID	2	2	Amended Filing Options:

									"6S" = Supplemental "CO" = Corrected
BTI~T6~050~47~NCMOTORFUELS~20010523~ABCD~24~516999988~49~1234~SV~xxxxxxxx~00\									
Syntax Notes: If either BTI07 or BTI08 is present, then the other is required. If either BTI09 or BTI10 is present, then the other is required. If either BTI11 or BTI12 is present, then the other is required.									
FTA Notes: BTI07 must be the FEIN if the taxpayer has one. Submit a SSN only for sole proprietorships that have not been issued a FEIN. The application of BTI13 and BTI14 are as follows: BTI13 should be used when the taxpayer transmits their initial return (BTI13 should be used without BTI14); BTI14 should be used when the taxpayer transmits modifications (BTI14 should be used without BTI13). This is a recommendation of the Motor Fuel Uniformity Committee, not a requirement of X12. Further clarification of these elements is located below.									
Element		Application							
BTI13 [Initial Return]									
"00" = Original		Use "Original" when first attempting to transmit your return to the department whether the return is received or not. Always use "00" until the original return is received.							
"05" = Replace		Use "Replace" when first attempt of transmitted return had corrupted data.							
"15" = Resubmission		Use "Resubmission" when the Department did not receive first attempt of your transmitted return.							
BTI14 [Amended Return]									
"CO" = Corrected		Use "Corrected" when adjusting or correcting original or amended return.							
"6R" = Resubmission		Use "Resubmission" when first attempt to transmit amended return was not received by the Department.							
"6S" = Supplemental		Use "Supplemental" when transmitting new or additional data not included in original or amended return.							
NC Notes:		The software provider code (BIT12) will be assigned by the state. Software vendors should contact the Department's EDI Coordinator (See the Contact Information Section) to request a software provider code. Filers who develop their own software may leave the BTI11 and BTI12 blank.							

Tax Filing Period								(Required)	
Date/Time Reference Segment								Pos. No. 0300	
Element ID	Elem Ref #	Sub-Ele Ref #	Field Status	Field Name	Field Type	Length		Field Description	
						Min	Max

End of Transaction Set Header

Transaction Set - Terminal Operator Report (TOR)

This TFS loop reports information on the TOR. Transaction detail is reported using the Schedule section of this map.

The TFS loop is repeated when reporting information for each terminal reported. Repeat the FGS loop within the TFS loop for each product reported.

Beginning of Terminal Operator Report								
Tax Form Segment								Pos. No. 0100

Syntax Notes: REF02 is required.								
FTA Note: REF02, REF05 and REF07 represent the taxing authorities and their relationship to the information in this TFS loop.								
REF05 REF07 use the sub element separator.								

Sequence ID Number Usage

Sequence ID number is a counter used as a reference point when the Department contacts a filer with a question about the EDI file. The first Sequence ID Number within an envelope (ISA/IEA loop) will start at 1. Every subsequent REF within the ISA/IEA loop will be incremented by 1.

Summary Information

This TFS loop reports summary information. This TFS loop is used in combination with the SDR report.

Summary information is used when the information cannot be derived from the schedule details. This TFS loop repeats when one of the following values changes: TFS02 Summary Code, TFS04 Product Code.

If there are no transactions to report in this filing, it is not necessary to transmit a Summary Information TFS loop.

Beginning of Summary Information								
Tax Form Segment

North Carolina Summary Mapping

Gas-1202 Motor Fuel Supplier Return

TFS02 Summary Code: S03C	[Summary by Primary Product Code]	
Road Tax Tare Allowance	(Page 1, Line 10 of return)	TIA Code: 5005
TFS02 Summary Code: S03B02	[Summary by Primary Product Code]	
Inspection Tax Tare Allowance	(Page 1, Line 14 of return)	TIA Code: 5005
TFS02 Summary Code: S02A	[Summary by Primary Product Code]	
Motor Fuel Tax Due	(Page 1, Line 16 of return)	TIA Code: 5005
TFS02 Summary Code: S02C	[Summary by Primary Product Code]	
Inspection Fees	(Page 1, Line 17 of return)	TIA Code: 5005
TFS02 Summary Code: S03A01	[Summary by Primary Product Code]	
Administrative Discount	(Page 1, Line 18 of return)	TIA Code: 5005
(Total Administrative Discount across all product codes may not exceed \$8,000.00)		
TFS02 Summary Code: S03A	[Summary by Primary Product Code]	
Adjustments	(Page 1, Line 19 of return)	TIA Code: 5005
TFS02 Summary Code: S02		
Total Amount Due	(Required) (Page 1, Line 23 of return)	TIA Code: 5005
Penalty	(Required) (Page 1, Line 21 of return)	TIA Code: 5009
Interest	(Required) (Page 1, Line 22 of return)	TIA Code: 5008

Gas-1204 Motor Fuel Terminal Operator Return

TFS02 Summary Code: S02		
Penalty	(Required) (Page 1, Line 9 of return)	TIA Code: 5009

Gas-1301 Motor Fuel Transporter Return

TFS02 Summary Code: S02		
Penalty	(Required) (Page 1, Line 5 of return)	TIA Code: 5009

Product Code Specifications

Gas-1202 Motor Fuel Supplier Return

When reporting summary by product, summarize values and report using the primary product code for the column as shown in the following table:

Column	Primary Product Code
Gasoline	065
Undyed Diesel	160
Dyed Diesel	226
Undyed Kerosene	142
Dyed Kerosene	072
Jet Fuel	130
Aviation Gasoline	125

Note: Summary segments are required as indicated above and for any value less than or equal to zero. However, summary segments are not required with a "No Activity" filing.

Schedules

This TFS loop begins the schedule detail. It repeats when one of the following values change:

Tax Form Code, Schedule Code, Mode Code, Product Code, Origin, Position Holder, Seller, Consignor, Carrier, Buyer, or Destination.

If there are no transactions to report in this filing, it is not necessary to transmit a Schedules TFS loop. You must indicate no activity in the TOR, SDR and/or CCR sections of this map.

For Point of Origin/Terminal: (One of the following Options is Required)

Use Option 1 when the origin has an IRS TCN.

Use Option 2 when the origin does not have an IRS TCN.

Use Option 3 when the state requires an origin facility ID (currently used by the state of Florida).

Option 1

Point of Origin Name Segment 1								
(One of the two options is used) Pos. No. 0500								
Element ID	Elem Ref. #	Sub-Ele Ref. #	Field Status	Field Name	Field Type	Length		Field Description
						Min	Max	
N101	98		M	Entity Identification Code	ID	2	2	"OT" = Origin Terminal
N102 is not used.								
N103	66		X	Identification Code Qualifier	ID	2	2	"TC" = IRS Terminal Code
N104	67		X	Identification Code	AN	9	9	IRS Terminal Code (Code list is located at www.irs.gov/bus_info/excise/index.html)
N1~OT~~TC~T56NC0000\								
Syntax Notes: N103 is required. If either N103 or N104 is present, then the other is required.								
FTA Notes: None								
NC Notes: Origin Terminal (Option 1) is required when the origin has an IRS TCN Origin Terminal (Option 1) is required for all Terminal Operator Disbursements Origin Terminal (Option 1) is required for Supplier Schedule 6X – Gallons exchanged between licensed suppliers Origin is optional for Terminal Operator Receipts Either origin option 1 or origin option 2 is required for all other schedules								

Option 2

Point of Origin Name Segment 1								
(One of the two options is used) Pos. No. 0500								
Element ID	Elem Ref. #	Sub-Ele Ref. #	Field Status	Field Name	Field Type	Length		Field Description
						Min	Max	
N101	98		M	Entity Identification Code	ID	2	2	"SF" = Ship From
N102	93		X	Name	AN	2	2	Origin State Abbreviation
N1~SF~NC\								
Syntax Notes: N102 is required.								
FTA Notes: None								
NC Notes: Either origin option 1 or origin option 2 is required for all schedules								

Point of Origin Name Segment 1								
Pos. No. 0500								
Element ID	Elem Ref. #	Sub-Ele Ref. #	Field Status	Field Name	Field Type	Length		Field Description
						Min	Max	
N401	19		M	City Name	AN	2	30	Name of City
N402	156		O	State or Province Code	ID	2	2	State or Providence Abbreviation
N403	116		O	Postal Code	ID	3	11	ZIP or ZIP plus 4 Code
N4~Selma~NC\								
Syntax Notes: None								
FTA Notes: None								
NC Notes: Include this segment when using origin option 2.								

Option 3

Point of Origin						(One of the three options is used)			
Name Segment 1						Pos. No. 0500			
Element ID	Elem Ref. #	Sub-Ele Ref. #	Field Status	Field Name	Field Type	Length		Field Description	
						Min	Max

820 Payment Order/Remittance Advice

FUNCTIONAL GROUP: RA

This Draft Standard for Trial Use contains the format and establishes the data contents of the Payment Order/Remittance Advice Transaction Set (820) for use within the context of an Electronic Data Interchange (EDI) environment. The transaction set can be used to make a payment, send a remittance advice, or make a payment and send a remittance advice.

This transaction set can be an order to a financial institution to make a payment to a payee. It can also be a remittance advice identifying the detail needed to perform cash application to the payee's accounts receivable system. The remittance advice can go directly from payer to payee, through a financial institution, or through a third party agent.

NOTES

- 2/0100 The ENT loop is for vendor or consumer third party consolidated payments.
 2/2800 The TXP loop is for tax payments.
 2/2870 The DED loop is for child support payments.
 2/2900 The LX loop is for pension payments.
 2/3600 The N9 loop is for payroll payments.
 2/4500 The RYL loop is for royalty payments.

TRANSACTION SET TABLES • 820

COMMENTS

- 1/0350 The TRN segment is used to uniquely identify a payment order/remittance advice.
- 1/0400 The CUR segment does not initiate a foreign exchange transaction.
- 1/0700 The N1 loop allows for name/address information for the payer and payee which would be utilized to address remittance(s) for delivery.
- 2/0100 ENT09 may contain the payee's accounts receivable customer number.
- 2/0200 Allowing the NM1 segment to repeat in this area allows the paying entity within a payer and the paid entity within a payee to be identified (not the payer and payee).
- 2/0800 This ADX loop contains adjustment items which are not netted to an RMR segment in this transaction set.
- 2/1300 Loop IT1 within the ADX loop is the adjustment line item detail loop.
- 2/1500 Loop RMR is for open items being referenced or for payment on account.
- 2/1900 Loop IT1 within the RMR loop is the remittance line item detail loop.
- 2/2100 This ADX loop can only contain adjustment information for the immediately preceding RMR segment and affects the amount (RMR04) calculation. If this adjustment amount is not netted to the immediately preceding RMR, use the outer ADX loop (position 080).
- 2/2600 Loop IT1 within the ADX loop is the adjustment line item detail loop.
- 2/3700 The AMT segment can be used to provide information about allocation or distribution of net pay that is split across multiple payment orders.

Changes comment at table/position 2/3700.

Transaction Set Header Description

Beginning of Transaction Set Header Segment							(Required) Pos. No. 0100	
Element ID	Elem Ref #	Sub-Ele Ref #	Field Status	Field Name	Field Type	Length Min Max		Field Description
ST01	143		M	Transaction Set Code	ID	3	3	Transaction Set Type "820"
ST02	329		M	Transaction Set Control Number	AN	4	9	Transmitter defined unique control number (same value as SE02)
ST03	1705		O/Z	Implementation Convention Reference	AN	1	5	Version of taxing authority's implementation guide.
ST~820~00500~1.0\								
Syntax Notes: None								
FTA Note: It is recommended that ST03 be used to help identify which implementation guide the trading partner is using. This element will help the receiver of the data determine if the sender is using an old guide or the most current guide for the data transmission.								

Payment Order Remittance Advice Beginning Segment							(Required) Pos. No. 0200	
Element ID	Elem Ref #	Sub-Ele Ref #	Field Status	Field Name	Field Type	Length Min Max		Field Description
BPR01	305		M	Transaction Handling Code	ID	1	2	"S" = Single Debit Authorization
BPR02	782		M	Monetary Amount	R	1	18	Amount of tax payment
BPR03	478		M	Credit/Debit Flag Code	ID	1	1	"D" = Debit
BPR04	591		M	Payment Method Code	ID	3	3	"ACH" = Automated Clearing House
BPR05	812		M	Payment Format Code	ID	3	3	"CCD" = Cash Concentration/Disbursement
BPR06 through BPR11 are not inserted by the taxpayer. They are on file with the party that creates the ACH Debit transaction. The taxpayer transmits empty fields for these elements.								
BPR06	506		X/Z	(ODFI) ID Number Qualifier	ID	2	2	"01" = ABA Transit Routing Number and Check Digits.
BPR07	507		X	(ODFI) Identification Number	AN	3	12	State's Bank Routing and Transit Number
BPR08	569		O/Z	(ODFI) Account Number Qualifier	ID	1	3	"DA" = Demand Deposit "SG" = Savings
BPR09	508		X/Z	(ODFI) Account Number	AN	1	35	State's Bank Account Number to be Credited
BPR10	509		O	Originating Company Identifier	AN	10	10	State ID Example: Taxing Authority's DUNS Number
BPR11	510		O	Originating Company Supplemental Code	O	9	9	Code Identifying Fiscal Agent
BPR12	506		X/Z	(RDFI) ID Number Qualifier	ID	2	2	"01" = ABA Transit Routing Number and Check Digits
BPR13	507		X	(RDFI) Identification Number	AN	3	12	Taxpayer's Bank Routing and Transit Number
BPR14	569		O/Z	(RDFI) Account Number Qualifier	ID	1	3	"DA" = Demand Deposit "SG" = Savings
BPR15	508		X/Z	(RDFI) Account Number	AN	1	35	Taxpayer's Bank Account to be Debited
BPR16	373		O/Z	Date	DT	8	8	The intended payment effective date (CCYYMMDD)
BPR17	1048		O/Z	Business Function Code	ID	1	3	"TAX" = Tax Payment
BPR~S~500~D~ACH~CCD~~~~~01~123456789~DA~987654321~TAX\								
Syntax Notes: If either BPR12 or BPR13 is present, then the other is required. If BPR14 is present, then BPR15 is required.								
FTA Notes: ODFI (Originating Depository Financial Institution) is the bank that creates the ACH transaction. For debit transactions, this is the state's Bank. RDFI (Receiving Depository Financial Institution) is the bank that accepts the ACH transaction. For debit transactions, this is the Taxpayer's Bank.								

NC Notes: Please refer to payment procedures regarding the payment effective date.

Chapter 7 – 997 Functional Acknowledgment

ANSI ASC X12 – 997 EDI Standard

RELEASE • 004030

TRANSACTION SET TABLES • 997

997 Functional Acknowledgment

FUNCTIONAL GROUP: FA

This Draft Standard for Trial Use contains the format and establishes the data contents of the Functional Acknowledgment Transaction Set (997) for use within the context of an Electronic Data Interchange (EDI) environment. The transaction set can be used to define the control structures for a set of acknowledgments to indicate the results of the syntactical analysis of the electronically encoded documents. The encoded documents are the transaction sets, which are grouped in functional groups, used in defining transactions for business data interchange. This standard does not cover the semantic meaning of the information encoded in the transaction sets.

Table 1

NOTE	POS. NO.	SEQ. ID	NAME	REQ. DES.	MAX. USE	LOOP REPEAT
N	0100	ST	Transaction Set Header	M	1	
N	0200	AK1	Functional Group Response Header	M	1	
			LOOP ID - AK2			999999
N	0300	AK2	Transaction Set Response Header	O	1	
			LOOP ID - AK3			999999
C	0400	AK3	Data Segment Note	O	1	
	0500	AK4	Data Element Note	O	99	
	0600	AK5	Transaction Set Response Trailer	M	1	
	0700	AK9	Functional Group Response Trailer	M	1	
	0800	SE	Transaction Set Trailer	M	1	

NOTES

1/0100 These acknowledgments shall not be acknowledged, thereby preventing an endless cycle of acknowledgments of acknowledgments. Nor shall a Functional Acknowledgment be sent to report errors in a previous Functional Acknowledgment.

1/0100 The Functional Group Header Segment (GS) is used to start the envelope for the Functional Acknowledgment Transaction Sets. In preparing the functional group of acknowledgments, the application sender's code and the application receiver's code, taken from the functional group being acknowledged, are exchanged; therefore, one acknowledgment functional group responds to only those functional groups from one application receiver's code to one application sender's code.

1/0100 There is only one Functional Acknowledgment Transaction Set per acknowledged functional group.

1/0200 AK1 is used to respond to the functional group header and to start the acknowledgment for a functional group. There shall be one AK1 segment for the functional group that is being acknowledged.

1/0300 AK2 is used to start the acknowledgment of a transaction set within the received functional group. The AK2 segments shall appear in the same order as the transaction sets in the functional group that has been received and is being acknowledged.

COMMENTS

1/0400 The data segments of this standard are used to report the results of the syntactical analysis of the functional groups of transaction sets; they report the extent to which the syntax complies with the standards for transaction sets and functional groups. They do not report on the semantic meaning of the transaction sets (for example, on the ability of the receiver to comply with the request of the sender).

DECEMBER 1999

997 EDI Map

⁸ Data Interchange Standards Association, Inc. (DISA)

North Carolina is not using the 997 Functional Acknowledgement at this time. The 997 Functional Acknowledgment notifies the Information Provider that their EDI file was received. Translators create the 997 ACK when the translator processes an EDI file. This ACK is designed to pass back through the Information Provider/Transmitter's translator to notify the Information Provider/Transmitter that the EDI file was accepted, accepted with errors or rejected. If the EDI file is rejected, the Information Provider/Transmitter must fix the file and send a new EDI file.

Transaction Set Header Description

Beginning of Transaction Set								(Required) Pos. No. 0100
Element	Elem	Sub-Ele	Field	Field Name	Field	Length		Field
ID	Ref #	Ref #	Status		Type	Min	Max	Description
ST01	143		M	Transaction Set Code	ID	3	3	Transaction Set Type "997"
ST02	329		M	Transaction Set Control Number	AN	4	9	Translator defined (same value in SE02, unique control number)

Functional Group Response Header								(Required) Pos. No. 0200
Element	Elem	Sub-Ele	Field	Field Name	Field	Length		Field
ID	Ref #	Ref #	Status		Type	Min	Max	Description
AK101	479		M/Z	Transaction Set Identifier Code	ID	2	2	Functional ID found in the GS segment (GS01) of the functional group being acknowledged. TF = 813
AK102	28		M/Z	Group Control Number	N0	1	9	Functional group control number found in the GS segment (GS02) of the functional group being acknowledged.

Transaction Set Response Header								(Optional) Pos. No. 0300
Element	Elem	Sub-Ele	Field	Field Name	Field	Length		Field
ID	Ref #	Ref #	Status		Type	Min	Max	Description
AK201	143		M/Z	Functional Identifier Code	ID	3	3	Transaction set ID found in the ST segment (ST01) of the transaction set being acknowledged. 813
AK202	329		M/Z	Transaction Set Control Number	AN	4	9	Transaction set control number found in the ST segment (ST01) of the transaction set being acknowledged.

Data Segment Note								(Optional) Pos. No. 0400
Element	Elem	Sub-Ele	Field	Field Name	Field	Length		Field
ID	Ref #	Ref #	Status		Type	Min	Max	Description
AK301	721		M	Segment ID Code	ID	2	3	Code defining the segment ID of the segment in error. See X12 guide for codes.
AK302	719		M	Segment Position in Transaction Set	N0	1	6	The position of the segment counted from the transaction set header (ST). The transaction set header is 1.
AK303	447		O	Loop Identifier Code	AN	1	6	Loop ID number given on the transaction set diagram.
AK304	720		O	Segment Syntax Error Code	ID	1	3	1 = Unrecognized segment ID 2 = Unexpected segment 3 = Mandatory segment missing 4 = Loop occurs over maximum times 5 = Segment exceeds maximum use 6 = Segment not in defined transaction set 7 = Segment not in proper sequence 8 = Segment has data element errors
This segment defines segment syntax errors and the location of the segment. Refer to the X12 standards guide for further definition.								

Data Element Note

Appendix A - EDI Trading Partner Profile

North Carolina Department of Revenue

Josh Stein
Governor

McKinley Wooten, Jr.
Secretary

Trading Partner Agreement For Electronic Data Exchange

This Agreement is entered into by and between the North Carolina Department of Revenue ("Department") and _____ ("Licensee").

The Department and the Licensee wish to provide a means by which the Licensee will file its North Carolina Motor Fuel terminal operator, supplier and/or carrier return(s) by electronically transmitting data in substitution for conventional, paper-based documents and to assure that such return is legally valid and enforceable. In order to achieve this goal, the parties agree as follows:

1. **Terms and Amendments:** This Agreement shall be effective on the date it is signed by the Department and shall continue until terminated by either party. A copy of this properly signed Agreement shall be sent to the licensee. A party may terminate this Agreement by giving thirty (30) days written notice to the other party or by the cancellation of their Motor Fuels License. This Agreement may be amended at any time by executing a written addendum signed by both the Licensee and the Department.
2. **Standards:** The Licensee will electronically transmit return(s) to the Department according to the Department's standards and instructions that may be revised/updated by the Department from time to time. The Department will provide these standards and instructions to the Licensee in a reasonable time frame in advance of due dates to allow compliance with filing requirements.
3. **Transmission:** The Licensee shall access the Department's Internet website and upload the EDI file to the Department's secured web server.
4. **System Operations and Security Procedures:** The Licensee, at its own expense, shall provide and maintain the equipment, software, services and testing necessary for the Licensee to transmit the electronic return(s). The Department, at its own expense, shall provide and maintain the equipment, software, services and testing necessary for the Department to receive the electronic return(s). Each party shall use security procedures, which are reasonably sufficient to ensure that all transmissions of the return(s) are authorized and to protect its business records and data from improper access. In addition, the Licensee shall comply with all security procedures established and required by the Department.

5. **Signatures:** The Licensee's identification number and password, when included as part of the return filed pursuant to this Agreement, shall constitute the signature of the Licensee on the return as if such return were actually signed by the Licensee. Each Party shall adopt as its signature an electronic identification consisting of codes in each electronic transmission transmitted by such Party (the Signature). Each Party agrees that any signature of a Party affixed to or contained in any transmitted electronic transmission shall be sufficient to verify the Party originated such electronic transmission. Neither Party shall disclose to any unauthorized person the Signature of the other Party. [Note: An electronic signature is not effective as the original signature needed on the Trading Partner Agreement.]
6. **Receipt of Transmission:** An electronically submitted return shall be deemed to have been filed with the Department when the return, in the stipulated format, is accessible to the Department or the Department's third party service provider and meets the requirements of the Department. If the Licensee attempts to file and is unable to do so because the receipt computer is not available to receive a filing, the Department will not impose late filing penalties or interest provided the Licensee contacts the Department immediately when an access problem is identified and promptly remits the tax due.
7. **Acknowledgement of Transmission:** Upon receiving a successfully transmitted return from the Licensee, the Department or the Department's third party service provider will transmit an acknowledgement in return within one (1) business day from receipt of the Licensee's return. The acknowledgement will communicate only that the Department has received the Licensee's transmission and that it has either passed or failed the syntax verification. An acknowledgement does not imply any findings by the Department about the correctness of the return. A transmission that is received by the Department but is not in the stipulated format will not constitute a valid return.

The Licensee will receive a separate acknowledgement indicating that the transmission has passed or failed the Department's data validation process. It will be the Licensee's responsibility to retrieve the acknowledgement from the location specified by the Department.

8. **Garbled Transmissions:** If any transmission is received in an unintelligible or garbled form and the Department cannot identify the Licensee, no acknowledgement will be transmitted. The absence of an acknowledgement shall be treated as notice to the Licensee that the return was not received by the Department in the required format. The burden shall be on the Licensee to ensure that the Department receives a valid return in the required form and format within the time required.
9. **Record Retention:** The Licensee shall maintain records of the transactions covered by electronic filings for a period of not less than 3 years from the due date of the filing. Each Party agrees to maintain adequate back-up files to recreate electronic transmissions as required. Back-up files shall be subject to the terms of this Agreement to the same extent as the original data. Electronic transmissions shall be retained for such periods as required by relevant North Carolina statutes.
10. **Admissibility of Returns/Reports as Evidence:** A certified copy of any return may be introduced in paper form as evidence in any judicial or administrative proceeding by either party to the same extent and under the same conditions as any other business record. Neither party shall contest the admissibility of any return on the basis that it was not originated or maintained in paper form.
11. **Payments:** Any Licensee filing a return electronically under this Agreement shall make payment of taxes due by use of electronic payment regardless of the tax amount. The Licensee shall follow the procedures of the Department's Electronic Payment Application Program, which allows utilization of either automated clearinghouse (ACH) debit (a pay-by-phone program set up through the State's bank), ACH credit (a transaction arranged by the Taxpayer with its bank), or EDI 820 payments.

12. **Identifying Codes & Numbers:** To ensure proper identification of electronically transmitted returns, the parties will exchange the identifying qualifiers. Any changes in these qualifiers will be communicated to the other party before any transmission using the new qualifiers is sent.
13. **Certification:** An initial electronic transmission will not be authorized by either Party until subjected to reasonable testing to ensure compliance with the Department and its requirements. After the Department accepts the electronic transmission for production use, additional testing may be required when changes are made to the system environments, including but not limited to, installation of a new EDI translator or implementation of a new EDI version.
14. **Waiver:** The waiver of a breach of any provision of this Agreement shall not operate as or be construed to be a waiver of any subsequent breach of this Agreement. Any waiver shall operate as a waiver only with respect to the specific matter involved and in no way shall extend to any further matter.
15. **Entire Agreement:** This Agreement constitutes the final, entire, and complete agreement of the Parties with respect to the subject matter hereof; and supercedes any prior Agreement or understanding, whether written or oral, between or represented by the Parties relating to the subject matter.
16. **Amendment:** This Agreement shall not be changed, modified, or amended without the prior written consent of the Department.
17. **Governing Law:** This Agreement shall be governed by, and interpreted in accordance with the laws of the state of North Carolina.
18. **Assignment:** The Licensee shall not assign or transfer any right or interest in and to this Agreement without the prior written consent of the Department. Any purported assignment without the prior written consent of the Department shall be void and of no force or effect.

Signature of Department's Authorized Agent	Date

Return the original, signed Trading Partner Agreement to: NC Department of Revenue, Excise Tax Division, EDI Coordinator, 3301 Terminal Drive, Suite 125, Raleigh, North Carolina 27604, or Fax to: 919-250-7898. You may also scan the signed agreement and email it as an attachment to NCEDI@NCDOR.GOV.

Appendix B - Filing Procedures

For the filing procedures, please go to our website www.ncdor.gov. In the SEARCH field ("How do I...") type 'EDI-Uploading' and click 'SEARCH'. On a new page with search results, select 'Uploading an EDI File' to view the PDF presentation.

You may also find the filing procedures under the tab Taxes & Forms: Click on Taxes & Forms, and then click the link 'Motor Fuels Tax'. Under 'Electronic Services', click the 'Motor Fuels eFile Filing Instructions'. Scroll to the bottom of the page, then click on 'EDI - Uploading an EDI File' to view the PDF presentation. You may also access the PDF presentation by clicking this link: [EDI Filing Procedures](#). Questions regarding filing procedures may be referred to North Carolina Department of Revenue, Excise Tax Division.

Appendix C - North Carolina Schedules

Report Type	Schedule Code	Description
Gas 1202 - Supplier	1	Supplier Schedule of tax-paid receipts
Gas 1202 - Supplier	5A	Gallons sold to retailers, bulk end-users, unlicensed distributors, and company-owned/company-operated stations
Gas 1202 - Supplier	5C	Gallons sold to licensed suppliers, distributors, and importers
Gas 1202 - Supplier	5F	Dyed diesel and dyed kerosene gallons sold for taxable purposes
Gas 1202 - Supplier	6F	Dyed diesel and dyed kerosene gallons sold for non-taxable purposes
Gas 1202 - Supplier	6X	Gallons exchanged between licensed suppliers
Gas 1202 - Supplier	7	Gallons sold for export
Gas 1202 - Supplier	8	Gallons sold to the U.S. Government
Gas 1202 - Supplier	9A	Gallons sold to the State of North Carolina
Gas 1202 - Supplier	9C	Gallons sold to a N.C. local board of education
Gas 1202 - Supplier	9E	Gallons sold to a N.C. county, municipal corporation or hospital authority
Gas 1202 - Supplier	9F	Gallons sold to a N.C. charter school
Gas 1202 - Supplier	9G	Gallons sold to a N.C. community college
Gas 1204 – Terminal Operator	15A	Terminal operator schedule of receipts
Gas 1204 – Terminal Operator	15B	Terminal operator schedule of disbursements
Gas 1301 – Transporter	14A	Gallons of motor fuels loaded at a North Carolina terminal or bulk plant and delivered to another state
Gas 1301 – Transporter	14B	Gallons of motor fuels loaded at an out-of-state terminal or bulk plant and delivered in North Carolina
Gas 1301 – Transporter	14C	Gallons of motor fuels loaded at a North Carolina terminal or bulk plant and delivered in North Carolina

Appendix D - North Carolina Product Codes

Product Code	Description
054	Liquefied Propane Gas (LPG)
065	Gasoline
072	Kerosene - Dyed
122	Blending Components
123	Fuel Alcohol
124	Gasohol
125	Aviation Gasoline
130	Jet Fuel
142	Kerosene - Undyed
160	Diesel - Undyed
170	Biodiesel – Undyed
171	Biodiesel – Dyed
224	Compressed Natural Gas (CNG)
225	Liquefied Natural Gas (LNG)
226	Diesel – High Sulfur Dyed
227	Diesel – Low Sulfur Dyed

Appendix E - Summary Codes / TIA Codes

Summary Code and TIA Code Usage

Summary and TIA codes are used for the following purposes (See complete list of codes below.):

813 Map

1. TIA code 5001 (Total Net Reported) is a check value for determining if all information is included in the EDI file.
2. TOR – Terminal Operator Report or SDR - Supplier/Distributor Report - TIA code 5002 (Physical Inventory) is used to report Ending and/or Beginning Inventory.
3. SDR – Supplier/Distributor Report – TIA code 5003 (Total Due) is a check value used to acknowledge and validate tax liability or taxable gallons.
4. CCR – Common Carrier Report – TIA code 5004 (Total Net Transported) is a check value used to acknowledge and validate the report.
5. SUM - Summary Code and TIA codes are used for identifying information not found in schedules or able to be derived from the schedules. The SUM loop provides a looping structure allowing multiple TIAs in a uniform format
6. Schedules – TIA 5005 (Net), 5006 (Gross) and 5007 (Billed) are used to report bill of lading volume details or further define summary detail.
7. Summary codes are defined and utilized for both quantity and money. The TIA segment of the summary has elements for both quantity and monetary values.

820 Map

No TIA or summary codes used.

Summary Codes

S01	Inventory
S01A	Net Gains / Losses
S01B	Casualty Loss
S01C	Product Transfer – Disbursement
S01D	Product Transfer – Receipt
S01E	Meter Test – Disbursement
S01F	Meter Test - Receipt
S02	Taxes / Fees
S02A	Tax
S02B	Transfer / Lust Fee
S02C	Inspection Fee
S02D	Other Environmental Fee
S02E	Gaseous Permit Fee
S03	Credit
S03A	Tax Credit
	S03A01 Collection Allowance (<i>IN – February 2002</i>)
S03B	Fee Credit
	S03B01 Transfer Fee Credit (<i>MO – September 2001</i>)
	S03B02 Inspection Fee Credit (<i>MO – September 2001</i>)
S03C	Allowance
S04	Bad Debt Write-off
S04A	Tax Bad Debt Write-off
S04B	Fee Bad Debt Write-off
S05	General Return
S05A	Gallons/Liters Refined, Distilled or produced
S05B	Petroleum product repackaged into containers of 55 gallons or less
S05C	Ethanol Blended with Gasoline
	(<i>S05C is being phased out as of September 2005, see S05M01</i>)
S05D	Product Delivered
S05E	Other petroleum products first sold, offered for sale, or used in state (<i>NB</i>)
S05F	Total gallons of Motor Vehicle fuel first sold, offered for sale or used in state (<i>NB</i>).
S05G	Untaxed diesel used in a licensed vehicle
S05H	Kerosene blended with diesel and used in a licensed vehicle.
	(<i>S05H is being phased out as of September 2005, see S05M02</i>)
S05I	Other exempt removals (<i>CA – May 2001</i>)
S05J	Approved for deduction (<i>MS – January 2004</i>)
S05K	Taxable sales total dollar amount (<i>ND – January 2004</i>)
S05L	Taxable sales gallons multiplied by the average sales price for a defined period
	(<i>ND – January 2004</i>)
S05M	Product Blended
	S05M01 Product Blended with Gasoline
	S05M02 Product Blended with Undyed Diesel
	S05M03 Product Blended with Dyed Diesel

FTA Uniformity TIA Codes

The data represented by these TIA codes is not derivable from schedules or represents a check value.		
5000	Not used	
5001	Total Net Reported	Header
5002	Net Physical Inventory	TOR, SDR
5003	Total Due	SDR
5004	Total Net Transported	CCR
5005	Net	SCH, SUM
5006	Gross	SCH, SUM
5007	Billed	SCH, SUM
5008	Interest	SUM
5009	Penalty	SUM
5010	Confidential Information	Header
5011-5199	Not used	

Appendix F - Transaction Type Mode Codes

North Carolina Transaction Type Mode Codes	
Code	Description
B	Barge
BA	Book Adjustment
CE	Summary Information
J	Truck
PL	Pipeline
R	Railroad
S	Ship
ST	Stationary Transfer

The X12 standard requires 2 characters in the field using this code. When a single character is used, left justify and pad with a space.

Appendix H - Open

Appendix H is open for clarification of North Carolina specific procedures.

Appendix I - Amended Returns

What is an amended return?

An amended return is any data reported to the Department that adjusts or corrects an original tax filing. The filer may amend a return by filing a supplemental return.

How should I file an amended return?

If the original return was filed on paper, then the amended must be filed by paper. If the original was submitted by EDI, then the amended must be submitted by EDI or via web. Note, after you begin production EDI filing, all returns (both original and amended) must be filed via EDI or web.

Can I put amendments for different periods in one envelope?

No, amendments for different periods should be submitted in separate envelopes. Each file name carries the period covered of the file so it can be uniquely identified.

What information is needed when filing an Amended return?

The Department requires only the amended transaction(s) be filed along with all required summary (TIA) segments regardless of whether or not there has been a change in the summary value. Required Summary values, which have not changed, should be sent with a zero value. Summary values that have changed should indicate the change in value. For example, if the original return was sent with a penalty of \$15 but the correct value is \$10, the amended return should include a penalty value of -5.

Sometimes our back-office systems process a schedule transaction with a bill of lading date for a prior filing period, but we have already filed that return with the Department. How should we handle these late loads? The late loads must be reported by amending the return in which the activity occurred. Returns submitted via EDI in NC are not capable of accepting schedule transactions with a bill of lading date for a prior filing period. Late loads may not be included with current period schedule transactions. Activity must be reported in the filing period in which it occurred.

How are administrative discounts determined when filing an amended return?

The total administrative discount across all returns for a filing period, i.e., the original return and all amendments, is not to exceed \$8,000.

Appendix J - Sample EDI Files

Gas-1202 Motor Fuel Supplier Return (SDR)

(Formatted with carriage returns for viewing – in an actual filing, carriage returns would be omitted.)

Note: The Motor Fuel Supplier Return should be within its own ST/SE loop.
