Total Credits Taken	0	16,095,462

C-Corporations that take income tax credits must reduce the amount of credit in accordance with G. S. 105-130.5(a) (10). This adjustment decreases the total credits taken from the amount shown above by \$130,281.

A “0” in the spending column indicates that the taxpayer’s expenses have been incurred and reported in a prior year or that they were not reported.

Procedural Notes:

Information from taxpayer returns, including taxpayer errors and omissions, is shown as reported. All returns are subject to audit. Amounts may be adjusted for amended returns received during the current calendar year.

Amounts for any one taxpayer may reflect credits taken in multiple years. Affiliated taxpayers are reported individually.

A negative value may occur when an amount has been amended downward and the higher amount has been previously reported.
