## MONTHLY REPORT OF STATE SALES AND USE TAX GROSS COLLECTIONS AND GROSS RETAIL SALES

Data are compiled from reports and remittances made by taxpayers, and are classified according to sales and use tax registration numbers. Detail data from this report may not be directly comparable to that in reports for other months because of corrections in registration numbers affecting collections and gross retail sales within the business, county, and city classifications, and changes in the sales and use tax law. **NO** county sales and use taxes are included in this report.

## TABLE 1. STATE SALES AND USE TAX: GROSS COLLECTIONS AND GROSS RETAIL SALES BY COUNTIES

\* Gross collections reported during the month of January 2004 including collections of penalties, interest, and sales and use tax.

\*\* Amounts shown are total taxable and nontaxable sales reported on sales and use tax returns. Data reflect sales in December 2003.

\*\*\* Sales not presently tabulated.

Monthly sales and use tax reports are not comparable to monthly reports for periods prior to February 2002. Effective October 16, 2001, the general state sales and use tax rate increased from 4% to 4.5%, requiring changes to the return. Prior to the change, use taxes were separately stated and taxable sales were not calculated for use taxes. The new return combines sales and use taxes, and taxable sales are computed on the total. Therefore, gross collections reflect the 1/2% tax rate increase, and gross retail sales reflect taxable sales computed on the combined total of sales and use taxes.

<sup>1</sup>Estimated population as of April 1, 2000, prepared by the U. S. Department of Commerce, Bureau of the Census.

\* Gross collections reported during the month of January 2004 including collections of penalties, interest, and sales and use tax.

\*\* Amounts shown are total taxable and nontaxable sales reported on sales and use tax returns. Data reflect sales in December 2003.

Monthly sales and use tax reports are not comparable to monthly reports for periods prior to February 2002. Effective October 16, 2001, the general state sales and use tax rate increased from 4% to 4.5%, requiring changes to the return. Prior to the change, use taxes were separately stated and taxable sales were not calculated for use taxes. The new return combines sales and use taxes, and taxable sales are computed on the total. Therefore, gross collections reflect the 1/2% tax rate increase, and gross retail sales reflect taxable sales computed on the combined total of sales and use taxes.

## TABLE 3. STATE SALES AND USE TAX: GROSS COLLECTIONS AND GROSS RETAIL SALES BY TYPES OF BUSINESSES

		Gross		Gross			Gross		Gross
