

MONTHLY REPORT OF STATE SALES AND USE TAX GROSS COLLECTIONS AND GROSS RETAIL SALES

Data are compiled from reports and remittances made by taxpayers, and are classified according to sales and use tax registration numbers. Detail data from this report may not be directly comparable to that in reports for other months because of corrections in registration numbers affecting collections and gross retail sales within the business, county, and city classifications, and changes in the sales and use tax law. **NO** county sales and use taxes are included in this report.

* Gross collections reported during the month of November 2002 including collections of penalties, interest, and sales and use tax.

** Amounts shown are total taxable and nontaxable sales reported on sales and use tax returns. Data reflect sales in October 2002.

*** Sales not presently tabulated.

Starting with the December 2001 report, monthly sales and use tax reports are not comparable to previous monthly reports. Effective October 16, 2001, the general state sales and use tax rate increased from 4% to 4.5%, requiring changes to the return. Prior to the change, use taxes were separately stated and taxable sales were not calculated for use taxes. The new return combines sales and use taxes, and taxable sales are computed on the total. Therefore, gross collections reflect the 1/2% tax rate increase, and gross retail sales reflect taxable sales computed on the combined total of sales and use taxes.

* Gross collections reported during the month of November 2002 including collections of penalties, interest, and sales and use tax.

** Amounts shown are total taxable and nontaxable sales reported on sales and use tax returns. Data reflect sales in October 2002.

*** Sales not presently tabulated.

Starting with the December 2001 report, monthly sales and use tax reports are not comparable to previous monthly reports. Effective October 16, 2001, the general state sales and use tax rate increased from 4% to 4.5%, requiring changes to the return. Prior to the change, use taxes were separately stated and taxable sales were not calculated for use taxes. The new return combines sales and use taxes, and taxable sales are computed on the total. Therefore, gross collections reflect the 1/2% tax rate increase, and gross retail sales reflect taxable sales computed on the combined total of sales and use taxes.
