The gross state product (GSP) series was renamed to gross domestic product (GDP) by state series effective with the Bureau of Economic Analysis October 2006 release. Discontinuity exists in the GDP by state series beginning with 1997 when the data basis changed from SIC industry definitions to NAICS industry definitions. Data discontinuity may affect both the levels and computed growth rates of the GDP by state estimates.

State imposed taxes include all taxes imposed under Chapter 105 of the Revenue Laws of North Carolina including the 3% highway use tax, 3% motor vehicle lease tax, motor fuels taxes (including gasoline and oil inspection fees), related taxes imposed under other statutes, and payroll (unemployment insurance) taxes imposed under Chapter 96 of the North Carolina General Statutes. Motor vehicle registrations, driver licenses, and various other state licenses and fees are excluded. Tax amounts are net collections before deduction of local shares, certain reimbursements to local governments, and transfers to special funds. Sources: Bureau of Economic Analysis. *Gross Domestic Product by State Data Table*, released June 10, 2015; North Carolina Employment Security Commission. Unemployment taxes.
