Some companies may have used an incorrect percentage to calculate credits generated based on their Tier and Development Zone/non-Development Zone location.

Notes: Information from taxpayer returns, including taxpayer errors and omissions, is shown as reported. All returns are subject to audit. Amounts for any one taxpayer may reflect credits generated in multiple years. Affiliated taxpayers are reported individually. Taxpayers who failed to identify their tier have been placed in the tier of their mailing address as reported to the Department of Revenue or as available from other sources.

3/31/2006 Page 9 of 9

^{*}Continental Teves, Inc., reported equal amounts for Machinery and Equipment spending and Credits Generated at facilities located in Tiers 2 and 5 resulting in apparent overstatements of Credits Generated by \$30,208,924 and \$7,092,856, respectively.
