NC-478L - Investing in Real Property

The credit for investing in real property is applicable only to real property placed in service in a development tier one area. Property placed in service in an urban progress zone or an agrarian growth zone is not considered to be placed in service in a tier one area for purposes of this credit. The credit for investing in real property is taken in seven equal installments beginning in the tax year following the year in which the real property was placed in service. Any unused portion of the credit may be carried forward for five succeeding years. In addition, in order to claim the credit for investing in real property, you must provide all the eligibility information requested on the Article 3J Supplement.
